#### **Operating Cash Flow**

### **\$144m**

-3% vs. FY23: \$148m<sup>4</sup>

**EPS**<sup>'</sup> **11.7c** FY23: 12.2c

**IFRS profit of \$139m** including record fair value movements

- Recovery in operating business with 14% lift in Operating EBITDA
- Underlying profit of \$85m down • 3% with higher interest cost
- Strong growth in Embedded Value supports future cash flow generation
- NTA up to \$2.05 per share •

1. Underlying Profit is a non-GAAP unaudited financial measure and differs from NZ IFRS net profit after tax. A reconciliation is provided in the FY24 annual report and investor presentation.

- 2. Operating EBITDA is a non-GAAP unaudited financial measure that adds back interest and depreciation to Underlying Profit and excludes gains on new sales.
- 3. Embedded Value ("EV") is an internal calculation based on the data in the independent valuation reports for all occupied units.
- 4. Restated \$4.3m in comparative year following settlement of material damage settlement claim.
- 5. Calculated as a ratio of net interest bearing debt to net interest bearing debt plus the book value of total equity.
- 6. NTA per share is calculated as the net assets before intangible assets divided by shares on issue.

7. EPS is calculated as the Underlying Profit divided by weighted average shares on issue.

### FY24 key points

- Successfully navigated challenging property and economic environment
- Preserved headroom in our capital structure
- Delivered fee and service package revenue capture initiatives to address shortfalls
- Roll out of workforce efficiency programme
- Delivered record sales performance
- Made inroads into maturing critical operational areas of the business
- Lifted our culture and capability with implementation of People strategy
- Development programme repositioned to maintain capital position
- Divestment of integrated village completed at valuation
- Value recognition programme underway to unlock intrinsic value

# **FY25 Strategy in Action**

### FY25 strategic priorities to lift value recognition

## 01

## Progress value recognition programme

1. Accelerate intrinsic value for shareholders

## 02

# Deliver operating performance

- 1. Reduce core debt
- 2. Realise cost savings
- 3. Improve revenue capture

## 03

# Balance development cash flow

1. Positive net development cash flows

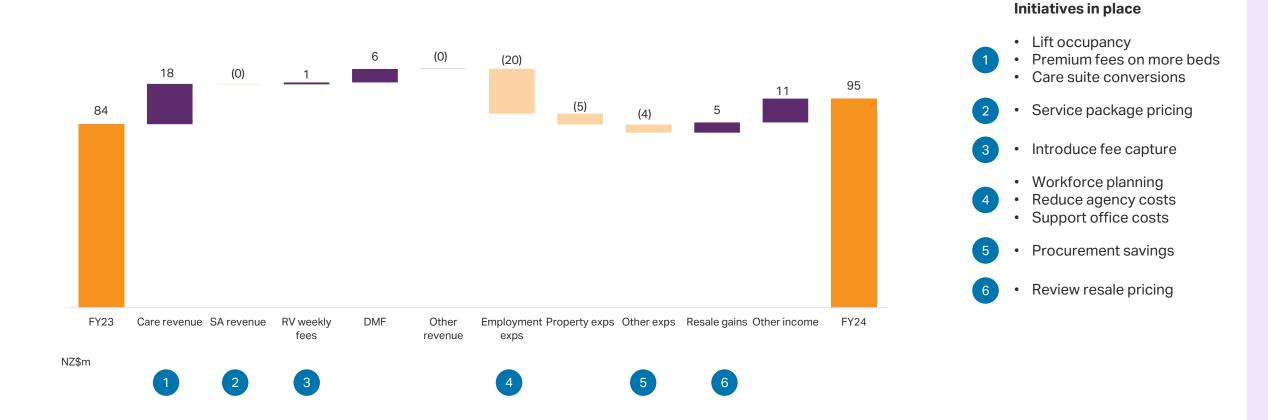

How we will measure performance:

- Absolute total shareholder returns (TSR)
- TSR performance relative to listed peers

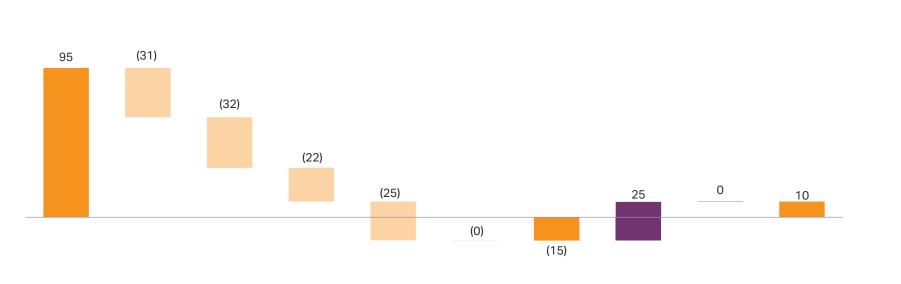

- \$200m of core debt reduction initiatives
- Positive cash flows from core business operations
- Initial \$10m annualised operational savings
- Fee capture mechanisms

- Gross value from new sales greater than development capex (ex. cap interest)
- Positive whole project cash returns on future development

### **Operating EBITDA | FY23 to FY24**

### FY24 Operating EBITDA to FY24 Unlevered pre-tax OCF

#### Queenstown Country Club - development related activity

1. Excludes net operations interest of existing units at time of acquisition.

2. Development activities include all direct costs (interest, consultable, etc) incurred as part of the development.

### **Development activity**

#### **Key Statistics**

The 21 hectare site located in Queenstown was acquired in 2019, as a partially complete development opportunity. At the time of acquisition, the village comprised only 32 completed units.

As at 31/3/24, an additional 102 villas built as well as a Warren Mahoney designed premium resident clubhouse.

#### Vision

To create a premium retirement community that becomes a world-class destination for the active retiree.

A key part of the overall strategy includes the provision of a care offering with construction of a high quality care suite center. This would uniquely position Queenstown Country Club as the exclusive provider of quality aged care services in the wider district.

#### **Construction Activities**

Arvida uses a mix of delivery models.

The Internal Construction Team builds approximately half of Arvida's developments utilising a range of direct delivery staff and trade contractors.

Utilise 3rd party main contractors to build the remainder of our projects where it is not suitable or desirable to utilise Arvida's internal construction team.

- Refocused development pipeline includes opportunity to build additional 1,877 units (gross) across 17 villages, 76% is greenfield development activity
- Brownfield development in progress comprises 100 units, with an additional 343 units in the pipeline (requires 161 ORA units to be decommissioned)
  - No plans to progress these brownfield development opportunities currently
  - No further decommissioning of units is required for current brownfield development in progress

### **Greenfield development opportunity**

- Greenfield development opportunity of 1,434 units<sup>1</sup>, or around 7 years of activity
- Focused on bringing forward greenfield planning to enable ready activation of development programmes
  - Lincoln rezoned and consented
  - Waikanae Beach master planning completing, trades more competitive
  - Warkworth lodged rezoning / plan change application, circa
    40ha of surplus land to be sold
- Greenfield master plan now refined to utilise existing standardised Arvida designs as templates
  - Targeting yield of circa 200 villas and 40 care suites from urban-fringe sites
  - Apartments assessed on site location basis
- Using mix of internal and external development capability that has now built track record across a variety of construction projects
- Conditional agreement to acquire greenfield site, with FY26 settlement

Drone image of Warkworth greenfield development site acquired in FY24. Site comprises circa 55 ha located at the end of the northern motorway, with circa 40 ha of surplus land to be sold.

### Outlook

- Volatility in economic outlook reducing, with inflation and interest rate expectations moderating – but with the possibility of a longer economic cycle than expected
- Workforce shortages now largely limited to more experienced nurses in some regional areas
- Property market waiting for a clear signal that mortgage rates will fall
- Clarity on government policy for aged care funding and service models coming from current reviews
- Demographic tailwinds underpin demand but new supply to market remains curtailed in current market

Report published by the Aged Care Commissioner, March 2024.
