Request for trading halt: Solution Dynamics Limited (NZX Code: SDL)

We request a trading halt be applied to our financial products (SDL) under NZX Listing Rule 9.9.1(a) and set out below details of the request as per the rules of NZX. We would like the trading halt to commence prior to the open of trading on the NZX on Monday, 25 November.

Reasons for trading halt, including impact of event on fair orderly or transparent markets: SDL has previously advised investors and the market that its largest customer was undertaking a Request for Proposal (RFP) process that covered communications services provided by SDL as part of the customer's regular review and tendering of its major contracts. During the weekend, SDL was advised that it had not been successful in the RFP process.

However, a number of issues remain unclear, particularly whether this decision applies to all or only part of SDL's services to the customer; furthermore, SDL currently has no information about the timing of the hand over process.

SDL has an RFP debriefing call with the customer's procurement team overnight Monday night (NZ time) and on Tuesday will then consider and review the information received.

How long we want the trading halt to last and why: SDL will review the information received from its customer and then provide a formal announcement to the market. The trading halt is requested until the earlier of SDL's announcement or market open on Wednesday, 27 November 2024.

The event we expect to happen that will end the trading halt: The formal NZX announcement to the market referred to under the previous subheading, outlining what SDL expects will entail a greater degree of understanding of the RFP process outcome.

We confirm we are not aware of any reason why the trading halt should not be granted or of any other information necessary to inform the market about the trading halt.

Yours sincerely

A handwritten signature in blue ink that reads 'John McMahon'.
