## TURNERS AUTOMOTIVE GROUP LIMITED

### 1. ACCOUNTING POLICIES AND SIGNIFICANT JUDGEMENT, ESTIMATES AND ASSUMPTIONS

The same accounting policies included in the Group's Annual Report for the year ended 31 March 2023 have been applied when preparing these consolidated condensed financial statements, except for the adoption of NZ IFRS 17 Insurance Contracts as set out in note 11.

These consolidated condensed financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ('NZ GAAP'). They comply with New Zealand equivalents to International Accounting Standard 34 Interim Financial reporting ('NZ IAS 34') and International Accounting Standard 34 Interim Financial Reporting ('IAS 34'). The Group is a Tier 1 for-profit entity in accordance with XRB A1 Application of the Accounting Standards Framework.

The same significant judgments, estimates and assumptions (including basis of segmentation and the fair value measurement) included in the notes to the financial statements in the Group's Annual Report for the year to 31 March 2023 have been applied to these financial statements. The business does not experience notable seasonal variations. There has been no change to the basis of segmentation from that applied at 31 March 2023.

Five reportable segments have been identified as follows:

Automotive retail - remarketing (motor vehicles, trucks, heavy machinery and commercial goods) and purchasing goods for sale.

Finance - provides asset based finance to consumers and SME's.

Credit management - collection services, credit management and debt recovery services to the corporate and SME sectors. Geographically the collections services segment business activities are located in New Zealand and Australia.

Insurance - marketing and administration of a range of life and consumer insurance and saving products.

Corporate & other - corporate centre.

### 5. CASH AND CASH EQUIVALENTS

	30/09/2023	30/09/2022	31/03/2023
	Unaudited	Restated & unaudited	Restated & unaudited
	\$'000	\$'000	\$'000
Cash and cash equivalents	12,639	17,711	11,845

The Group's insurance business is required to comply with the solvency standards for licensed insurers issued by the Reserve Bank of New Zealand. The solvency standards specify the level of assets the insurance business is required to hold in order to meet solvency requirements, consequently all cash and cash equivalents held in the insurance business may not be available for use by the wider Group. The Group's insurance business' cash and cash equivalents at 30 September 2023 were \$1.5m (30 September 2022: \$1.2m; 31 March 2023: \$2.0m).

Cash and cash equivalents at 30 September 2023 of \$7.4m (30 September 2022 :\$3.9m; 31 March 2023: \$4.3m) belongs to the Turners Marque Warehouse Trust 1 and the Turners Marque ABS 2023-1 Trust and are not all available to the Group.

## TURNERS AUTOMOTIVE GROUP LIMITED

### 6. FINANCE RECEIVABLES

	30/09/2023	30/09/2022	31/03/2023
	Unaudited	Restated & unaudited	Restated & unaudited
	\$'000	\$'000	\$'000
Gross finance receivables	420,554	438,556	422,014
Deferred fee revenue and commission expenses	10,024	13,915	11,276
Provision for impairment	(7,673)	(7,932)	(6,704)
Economic overlay provision	(1,965)	(1,482)	(1,965)
	420,940	443,057	424,621
Fair value	420,938	433,162	425,900

The fair values are based on cash flows discounted using a weighted average interest rate of 13.45% (30 September 2022: 11.40%; 31 March 2023: 11.81%).

#### Securitisation

The Group has two Trusts under which it securitises finance receivables. The Trusts are special purpose entities set up solely for the purpose of purchasing finance receivables originated by the finance sector. The New Zealand Guardian Trust Company Limited has been appointed Trustee and NZGT Security Trustee Limited as the security trustee for both Trusts. The Company is the sole beneficiary of both Trusts.

The Group has the power over the Trusts, exposure, or rights, to variable returns from its involvement with the Trusts and the ability to use its power over the Trusts to affect the amount of the Group's returns from the Trusts. Consequently the Group controls the Trusts and has consolidated the Trusts into the Group's financial statements.

The Group retains substantially all the risks and rewards relating to the finance receivables sold and therefore the finance receivables do not qualify for derecognition and remain on the Group's consolidated statement of financial position.

#### Turners Marque Warehouse Trust 1 (the Trust)

The Trust has a wholesale funding facility with the Bank of New Zealand (BNZ) which is secured by finance receivables sold to the Trust. The facility is for \$281m and with a 1 year term that will be renewed annually. BNZ fund up to 90% (30 September 2022: 89%; 31 March 2023: 85%) of the purchase price of the finance receivables with the balance funded by sub-ordinated notes from the Group.

During the reporting period \$96.4m finance receivables were sold to the Trust (30 September 2022: \$125.6m; 31 March 2023: \$215.5m) and the Trust sold \$100.0m finance receivables to the Turners Marque ABS 2023-1 Trust. As at 30 September 2023 the carrying value of finance receivables in the Trust was \$247.6m (30 September 2022: \$354.2m; 31 March 2023: \$314.4m).

#### Turners Marque ABS 2023-1 Trust (the 2023-1 Trust)

During the period the Group created the 2023-1 Trust. The 2023-1 Trust, is a closed pool trust, and issued \$100m notes comprising \$70m Class A1 notes and \$20.7m Class A2 notes both rated AAAsf (Fitch) and \$9.3m unrated Class B notes, the Class A2 notes and B notes are held by the Group. The 2023-1 Trust purchased \$100.0m finance receivables from the Trust. As at the 30 September 2023 the carrying value of finance receivables in the 2023-1 Trust was \$96.4m.

### 7. BORROWINGS

	30/09/2023	30/09/2022	31/03/2023
	Unaudited	Restated & unaudited	Restated & unaudited
	\$'000	\$'000	\$'000

Non bank borrowings	70,000	-	-
Total borrowings	417,385	430,827	412,035
Fair value	412,328	423,700	406,127

#### Secured bank borrowings

At September 2023 the Group has a syndicated funding facility, including a 1 year working capital facility, with the Bank of New Zealand and ASB Bank, a self liquidating trade finance facility and three year term facility with ASB Bank and a securitisation facility with the Bank of New Zealand.

The bank borrowings are secured by a first-ranking general security agreement over the assets of the Company and its subsidiaries, excluding DPL Insurance Limited, Turners Finance Limited and EC Credit (Aust.) Limited. The bank funded securitisation financing arrangement is described under finance receivables.

#### Non bank borrowings

The Group's non bank securitisation arrangement is described under finance receivables.

## TURNERS AUTOMOTIVE GROUP LIMITED

### 8. ASSETS AND LIABILITIES CARRIED AT FAIR VALUE

The fair value of financial assets and liabilities carried at fair value are summarised in the table below. The methods used to calculate fair value are the same as those applied when preparing the Group's Annual Report for the year ended 31 March 2023 (refer note 5.5 in the Annual Report for the year ended 31 March 2023). During the period there were no movements of fair value assets or liabilities between levels of the fair value hierarchy.

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
30/09/2023 (unaudited)				
Fair value assets:				
Financial assets at fair value through profit or loss - insurance	-	7,041	-	7,041
Financial assets at fair value through profit or loss - term deposits	60,400	-	-	60,400
Derivative financial instruments	-	5,474	-	5,474
	60,400	12,515	-	72,915
30/09/2022 (restated & unaudited)				
Fair value assets:				
Financial assets at fair value through profit or loss - insurance	-	7,193	-	7,193
Financial assets at fair value through profit or loss - term deposits	58,975	-	-	58,975
Investment property	-	-	5,950	5,950
Derivative financial instruments	-	7,146	-	7,146
	58,975	14,339	5,950	79,264
31/03/2023 (restated & audited)				
Fair value assets:				
Financial assets at fair value through profit or loss - insurance	-	7,305	-	7,305
Financial assets at fair value through profit or loss - term deposits	59,425	-	-	59,425
Investment property	-	-	5,800	5,800
Derivative financial instruments	-	5,887	-	5,887
	59,425	13,192	5,800	78,417

### 9. DIVIDENDS

	Six months ended 30/09/2023 Unaudited \$'000	Six months ended 30/09/2022 Restated & unaudited \$'000	Year ended 31/03/2023 Restated & unaudited \$'000
Final dividend for the year ended 31 March 2023 of \$0.07 (31 March 2022: \$0.07) per fully paid ordinary share, imputed paid on 28 July 2023 (2022: 28 July 2022).	6,085	6,062	6,062
Quarterly dividend for the year ended 31 March 2023 of \$0.05 per fully paid ordinary share, imputed, paid on 27 October 2022.	-	-	4,335
Quarterly dividend for the year ended 31 March 2023 of \$0.05 per fully paid ordinary share, imputed, paid on 26 January 2023.	-	-	4,335
Quarterly dividend for the year ended 31 March 2023: \$0.06 per fully paid ordinary share, imputed, paid on 27 April 2023.	5,202	-	-
Total dividends provided for or paid	11,287	6,062	14,732

*Dividends not recognised at the end of the half year:*

In addition to the above dividends, since the end of the period the directors have recommended the payment of the following dividends expected to be paid out of retained earnings at 30 September 2023 (30 September 2022; 31 March 2023), but not recognised as a liability at the end of the period:

Quarterly dividend for the year ended 31 March 2023 of \$0.06 per fully paid ordinary share, imputed, paid on 27 April 2023.	-	-	5,202
Final dividend of \$0.07 per fully paid ordinary share, imputed, payable on 28 July 2023.	-	-	6,085
Quarterly dividend for the year ended 31 March 2024 of \$0.05 (31 March 2023: \$0.05) per fully paid ordinary share, imputed, payable on 27 October 2023 (2022: 27 October 2022).	5,251	4,335	-
Quarterly dividend for the year ended 31 March 2024 of \$0.06 (31 March 2023: \$0.05) per fully paid ordinary share, imputed, payable on 27 January 2024 (2023: 26 January 2023).	5,268	4,335	-

### 10. COMMITMENTS

#### Capital Expenditure

At balance date, the Group has committed to the purchase of one property and the development of two sites. This has resulted in capital commitments of \$10,449,000 (30 September 2022: \$15.7m, purchase of three properties; 31 March 2023: \$4.4m development of one site).

## Turners Automotive Group Limited

### 11. CHANGE IN ACCOUNTING POLICY

This note explains the impact of the adoption of NZ IFRS 17 Insurance Contracts on the Group's financial statements and discloses the new accounting policies that have been applied from 1 April 2023.

The Group has adopted NZ IFRS 17 retrospectively from 1 April 2023 and has restated certain comparative amounts, the retrospective restatement does not have a material effect on the information in the statement of financial position at the beginning of the preceding period.

#### A. Recognition, measurement and presentation of insurance contracts

NZ IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts, reinsurance contracts and investment contracts with discretionary participation features. It introduces a model that measure groups of contracts based on the Group's estimates of the present value of future cash flows that are expected to arise as the Group fulfils the contracts, an explicit risk adjustment for non-financial risk and a contractual service margin (CSM).

Under NZ IFRS 17, insurance revenue in each reporting period represents the changes in the liabilities for remaining coverage that relate to services for which the Group expects to receive consideration and an allocation of premiums that relate to recovering insurance acquisition cash flows. In addition, investment components are no longer included in insurance revenue and insurance service expenses.

The Group applies the premium allocation approach (PAA) to simplify the measurement of certain contracts.

Under NZ IFRS 17, only directly attributable insurance acquisition cash flows that arise before the recognition of the related insurance contracts are recognised as separate assets and are tested for recoverability. These assets are presented in the carrying amount of the related portfolio of contracts and are derecognised once the related contracts have been recognised.

#### B. Transition

Changes in accounting policies resulting from the adoption of NZ IFRS 17 have been applied using the fair value approach as the Group cannot obtain reasonable and supportable information necessary to apply the full or modified retrospective approach.

The change in accounting policy only relates to the insurance segment and has affected the following items in the Statement of financial position:

	30/09/2022	1/04/2022
	\$'000	\$'000
Decrease in Other receivables, deferred expenses and contract assets	1,156	1,031
Increase in Insurance contract liabilities	1,228	1,350
Decrease in deferred tax impact	636	628
Decrease in Retained earnings	1,748	1,753

#### C. Accounting policy – Insurance contracts

Insurance contracts are those contracts that transfer significant insurance risk and are accounted for in accordance with the requirements of NZ IFRS 17 *Insurance Contracts*. The Group issues the following insurance contracts:

- Long-term insurance contracts with fixed and guaranteed terms, these contracts insure events associated with human life (for example, death) over a long duration;
- Temporary life insurance contracts covering death disablement, disability and redundancy risks; and
- Short term motor vehicle contracts covering mechanical breakdown risks.

#### Aggregation and recognition of insurance contracts

Insurance contracts

Insurance contracts are aggregated into groups for measurement purposes. Groups of insurance contracts are determined by identifying portfolios of insurance contracts, each comprising contracts subject to similar risks and managed together, and dividing each portfolio into annual cohorts (i.e. by year of issue) and each annual cohort into three groups based on the profitability of contracts:

- any contracts that are onerous on initial recognition;
- any contracts that, on initial recognition, have no significant possibility of becoming onerous subsequently; and
- any remaining contracts in the annual cohort.

An insurance contract issued by the Group is recognised from the earliest of:

- the beginning of its coverage period (i.e. the period during which the Group provides services in respect of any premiums within the boundary of the contract);
- when the first payment from the policyholder becomes due or, if there is no contractual due date, when it is received from the policyholder; and
- when facts and circumstances indicate that the contract is onerous.

When the contract is recognised, it is added to an existing group of contracts or, if the contract does not qualify for inclusion in an existing group, it forms a new group to which future contracts are added. Groups of contracts are established on initial recognition and their composition is not revised once all contracts have been added to the group.

Contract boundaries

The measurement of a group of contracts includes all of the future cash flows within the boundary of each contract in the group, determined as follows.

## Turners Automotive Group Limited

### Insurance contracts

Cash flows are within the contract boundary if they arise from substantive rights and obligations that exist during the reporting period in which the Group can compel the policyholder to pay premiums or has a substantive obligation to provide services (including insurance coverage and investment services). A substantive obligation to provide services ends when:

- the Group has the practical ability to reassess the risks of the particular policyholder and can set a price or level of benefits that fully reflects those reassessed risks; or
- the Group has the practical ability to reassess the risks of the portfolio that contains the contract and can set a price or level of benefits that fully reflects the risks of that portfolio, and the pricing of the premiums up to the reassessment date does not take into account risks that relate to periods after the reassessment date.

### Measurement – Contracts not measure under the PAA

On initial recognition, the Group measures a group of contracts as the total of (a) the fulfilment cash flows, which comprise estimates of future cash flows, adjusted to reflect the time value of money and the associated financial risks, and a risk adjustment for non-financial risk; and (b) the CSM.

The risk adjustment for non-financial risk for a group of insurance contracts, determined separately from the other estimates, is the compensation required for bearing uncertainty about the amount and timing of the cash flows that arises from non-financial risk.

The CSM of a group of insurance contracts represents the unearned profit that the Group recognises as it provides services under those contracts. On initial recognition of a group of insurance contracts, the Group determines the net present value of future cash-flows expected to arise under those contracts, with an allowance for non-financial risk. If the result is positive (i.e. a net inflow), the group is not onerous, and a CSM is established equal to the present value of the net inflow, hence no profit is recognised in profit or loss at contract inception. If the result is negative, the CSM is zero, and the negative value reflects the loss on those contracts recognised at inception and is recognised as a loss in profit or loss.

Subsequently, the carrying amount of a group of contracts at each reporting date is the sum of the liability for remaining coverage and the liability for incurred claims. The liability for remaining coverage comprises (a) the fulfilment cash flows that relate to services that will be provided under the contracts in future periods and (b) any remaining CSM at that date. The liability for incurred claims includes the fulfilment cash flows for incurred claims and expenses that have not yet been paid, including claims that have been incurred but not yet reported.

The fulfilment cash flows of groups of contracts are measured at the reporting date using current estimates of future cash flows, current discount rates and current estimates of the risk adjustment for non-financial risk. Changes in fulfilment cash flows are recognised as follows.

Changes relating to future services	Adjusted against the CSM (or recognised in the insurance service result in profit or loss if the group is onerous)
Changes relating to current or past services	Recognised in the insurance service result in profit or loss
Effects of the time value of money, financial risk and changes therein on estimated future cash flows	Recognised as insurance finance income or expenses

The CSM is adjusted subsequently only for changes in fulfilment cash flows that relate to future services and other specified amounts and is recognised in profit or loss as services are provided. The CSM at each reporting date represents the profit in the group of contracts that has not yet been recognised in profit or loss because it relates to future service.

This approach is applied to the Group's Funeral Plan and Annuity Insurance Life contracts.

### Measurement – Contracts measured under the PAA

The Group uses the PAA to simplify the measurement of groups of contracts when the Group reasonably expects that such simplification would produce a measurement of the liability for remaining coverage for the group that would not differ materially from the result of applying the accounting policies described above.

On initial recognition of each group of insurance contracts, the carrying amount of the liability for remaining coverage is measured at the premiums received on initial recognition. The Group has elected to recognise insurance acquisition cash flows as expenses when they are incurred.

Subsequently, the carrying amount of the liability for remaining coverage is increased by any further premiums received and decreased by the amount recognised as insurance revenue for services provided. The liability for remaining coverage for in-force policies will reduce in line with the underlying pattern of insurance risk over the duration of the contracts in the group.

If at any time before and during the coverage period, facts and circumstances indicate that a group of contracts is onerous, then the Group will recognise a loss in profit or loss and increase the liability for remaining coverage to the extent that the current estimates of the fulfilment cash flows that relate to remaining coverage exceed the carrying amount of the liability for remaining coverage.

The Group recognises the liability for incurred claims of a group of contracts at the amount of the fulfilment cash flows relating to incurred claims. The liability for incurred claims is derived from undiscounted fulfilment cash flows as the Group writes only lines of business with claims that are virtually all settled within 12 months.

This approach is applied to all the Group's insurance contracts, except for the Group's Funeral Plan and Annuity Insurance Life contracts.

The Group applies the same accounting policies to measure a group of reinsurance contracts, adapted where necessary to reflect features that differ from those of insurance contracts.

### Derecognition

The Group derecognises a contract when it is extinguished – i.e. when the specified obligations in the contract expire or are discharged or cancelled.

### Presentation

Portfolios of insurance contracts that are assets and those that are liabilities, and portfolios of reinsurance contracts that are assets and those that are liabilities, are presented separately in the statement of financial position. All rights and obligations arising from a portfolio of contracts are presented on a net basis; therefore, balances such as insurance receivables and payables are no longer presented separately. Any assets or liabilities recognised for cash

## Turners Automotive Group Limited

flows arising before the recognition of the related group of contracts (including any assets for insurance acquisition cash flows) are also presented in the same line item as the related portfolios of contracts.

Amounts recognised in the statement of profit or loss and OCI are disclosed by the nature of the item.

### Insurance contracts

For contracts not measured using the PAA, insurance revenue for each year includes the changes in the liabilities for remaining coverage that relate to services for which the Group expects to receive consideration and an allocation of premiums that relate to recovering insurance acquisition cash flows. For contracts measured using the PAA, insurance revenue is recognised based on an allocation of expected premium receipts to each period of coverage, which is based on the passage of time.

### Transition

Changes in accounting policies resulting from the adoption of NZ IFRS 17 have been applied using the fair value approach as the Group cannot obtain reasonable and supportable information necessary to apply the full or modified retrospective approach.

The following items have not be applied retrospectively:

- The risk mitigation option in NZ IFRS 17 have not been applied prospectively from 1 April 2022. Certain groups of contracts to which the risk mitigation option is applied have been measured under the fair value approach at 1 April 2022 (see below).
- The consequential amendments to NZ IFRS 3 Business Combinations introduced by NZ IFRS 17 require the Group to classify contracts acquired as insurance contracts based on the contractual terms and other factors at the date of acquisition. This requirement has not been applied to business combinations before 1 April 2023, for which the Group classified contracts acquired as insurance contracts based on the conditions at contract.

### Reinsurance of onerous underlying contracts

For groups of reinsurance contracts covering onerous underlying contracts that were entered into before or at the same time as the onerous underlying contracts, the Group has established a loss-recovery component at 1 April 2022.

### Fair value approach

Under the "Fair Value" method of transition, the Group determines the price that an independent party would pay to take over the insurance contract liabilities, allowing for:

- the future net cash-flows arising under those contracts;
- the time value of money; and
- the compensation that the purchaser would require for the uncertainty relating to those cash-flows.

Non-performance risk of the contract issuer is taken into account in determining the fair value. In the valuation of portfolios of insurance contracts, the non-performance risk is normally taken as zero as it is assumed that policyholder obligations will be met with certainty.

The opening value of Contractual Service Margins is then equal to the difference between the Fair Value, and the value of fulfilment cash-flows determined under NZ IFRS 17.
