A brief explanation of any of the figures above necessary to enable the figures to be understood	<p>Growth in revenue from continuing operations was predominantly driven by prior period rating increases designed to mitigate the impacts of inflation, crime and increased reinsurance costs following the 2023 catastrophe events.</p> <p>The growth in profit reflected premium growth and improvements in the management expense ratio; along with the absence of large events, which had impacted the prior year's profit.</p> <p>Please refer to the 2024 interim results announcement presentation for further information.</p>
