A brief explanation of any of the figures above necessary to enable the figures to be understood	<p>Revenue from continuing operations & Total Revenue</p> <p><i>In FY24, a change in accounting policy resulted in a modification in the disclosure of realised and unrealised gains on energy hedges. These gains are now netted off, whereas in FY23, they were shown separately. Additionally, in FY24, net gains on energy hedges are classified as Income rather than Revenue. Consequently, Revenue from Continuing Operations and Total Revenue exclude net gains/losses from energy hedges.</i></p> <p>For further explanation please refer to the accompanying audited consolidated financial statements, annual report and market release for the reporting period.</p>
