25 August 2022

DOWNER AWARDED 10-YEAR CITY OF GOLD COAST CONTRACT

Downer EDI Limited (Downer) today announced it had been awarded a 10-year contract to deliver asset lifecycle delivery services to the City of Gold Coast's water and sewerage networks.

The contract will commence in August 2022, and generate revenue to Downer of approximately \$250 million.

Scope of works includes planned and reactive repairs and maintenance, refurbishment and renewals programs, and capital works related to the City of Gold Coast's water and sewerage network assets and facilities.

The contract will deliver water supply and sewerage services to Australia's second largest Local Government Area, and will be delivered by Gold Coast Infrastructure Solutions, a 50:50 joint venture between Downer and Ventia.

The Chief Executive Officer of Downer, Grant Fenn, said the contract strengthens Downer's position as the market leader in delivering complete water lifecycle solutions.

"We are pleased to be selected for this long-term partnership. We look forward to working closely with our customer, the City of Gold Coast Council, and our joint venture partner to deliver these vital services to the growing region of the Gold Coast," Mr Fenn said.

Authorised for release by Downer's Chief Executive Officer.

About Downer

Downer is the leading provider of integrated services in Australia and New Zealand and customers are at the heart of everything it does. It exists to create and sustain the modern environment and its promise is to work closely with its customers to help them succeed, using world-leading insights and solutions to design, build and sustain assets, infrastructure and facilities.
