

NZX RELEASE

15 NOVEMBER 2022

Napier Port publishes second Climate Change Related Disclosure Report

Napier Port (NZX.NPH) today publishes its second annual Climate Change Related Disclosure Report, which seeks to provide stakeholders with an understanding of the potential financial implications of climate change on its business. The report has been prepared in accordance with the recommendations of the Taskforce on Climate-related Financial Disclosures (TCFD).

The main focus of the second report is to highlight the progress that has been made to establish Napier Port's key climate related metrics and emission reduction targets. The 2022 financial year saw our emissions inventory being audited for the first time by Toitū Envirocare. The certification means Napier Port has measured and managed the operational emissions of our organisation in accordance with ISO 14064-1:2018 and the GHG Protocol.

Our emissions audit certification can be found on our website at:

www.napierport.co.nz/environment/environmental-monitoring/

Our Sustainability Strategy and Climate Change Related Disclosure Reports are available at:

About Napier Port

Napier Port is New Zealand's fourth largest port by container volume. We are the gateway for Hawke's Bay and lower North Island's exports and operate a long-term regional infrastructure asset that supports the regional economy. Our strategic purpose is to collaborate with the people and organisations that have a stake in helping our region grow. View Napier Port's investor centre: www.napierport.co.nz/investorcentre/
