A brief explanation of any of the figures above necessary to enable the figures to be understood	<p>For a detailed commentary on the performance for the period please refer to the attachment market announcement and Interim Report.</p> <p>The NTA is negative due to a large proportion of our assets being intangible assets (48%), notably goodwill from acquisitions which are excluded in calculated tangible assets. Further impacted by IFRS16 adjustments for RoU assets and lease liabilities combined with a bank loan facility (see note 16 of the Interim Report) drawn to fund acquisitions, increasing total liabilities. The movement in our NTA from 30 September 2023 relates to principal repayments of the bank loan and increased working capital.</p>
