#### 1. ACCOUNTING POLICIES

#### REPORTING ENTITY

AFC Group Holdings Limited (the "Company") is a company incorporated and domiciled in New Zealand and registered under the Companies Act 1993. The Company is listed and its ordinary shares are quoted on the NZX main board equity security market (NZX main market) and the addresses of its registered office and principal place of business are disclosed in the Corporate Information section of this report. The Company is an FMC Reporting Entity under the Financial Markets Conduct Act 2013 and its financial statements comply with the Companies Act 1993 and the Financial Markets Conduct Act 2013.

The interim consolidated financial statements of AFC Group Holdings Limited for the six month period ended 30 September 2021 comprise the Company and its subsidiaries (together referred to as the "Group"). For the purposes of complying with generally accepted accounting practice in New Zealand ("NZ GAAP"), the Group is a for-profit entity. The principal activity of the Company and the Group is to produce, manufacture and purchase food, health, and cosmetic products for distribution in New Zealand and the Chinese markets. The Group also operates in the winery and vineyard industry which has manufacturing operations.

### 1.1 Statement of compliance

These consolidated interim financial statements have been prepared in accordance with NZ GAAP. These consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with AFC Group Holdings Limited's Annual Report for the year ended 31 March 2021.

The condensed interim consolidated financial statements were approved and authorised for issue by the directors on 29/11/2021 . The directors are not able to amend the financial statements after issue.

# 1.2 Basis of preparation

The interim consolidated financial statements are prepared on a cost basis except for financial assets which are carried at amortised cost. The interim consolidated financial statements for the Group are presented in New Zealand dollars (\$), which is the functional currency of all entities within the Group. All financial information has been rounded to the nearest dollar unless otherwise stated.

### 1.3 Significant accounting policies

The preparation of the interim financial statements in compliance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 1.4.

AFC Group Holdings Limited has applied the same accounting policies and methods of computation in its interim consolidated financial statements as were applied in the annual financial statements for the year ended 31 March 2021, except for those that relate to new standards and interpretations effective for the first time for periods beginning on (or after) 1 April 2021 and will be adopted in the 2022 annual financial statements.

# 1.4 Critical accounting judgments and key sources of estimation uncertainty

The same significant judgments, estimates and assumptions included in the notes to the financial statements in the Group's financial statements for the year ended 31 March 2021 have been applied to these Interim Consolidated Financial Statements.

#### 1. ACCOUNTING POLICIES

# 1.5 Going concern

The consolidated financial statements have been prepared on a going concern basis. At 30 September 2021, the Group has positive equity of \$840,195.

The Group has minimal external debt and has negative working capital of (\$706,989) at that date. Excluding related party accounts payable and advances payable, the Group had positive working capital of \$108,454. The Group has suffered reduced sales in FY22 due to the Covid-19 pandemic and has taken steps manage the business accordingly.

The key factors the Directors considered in determining that the Going Concern assumption was appropriate include:

- 1 There is minimal external debt and no externally imposed capital requirements.
- The negative working capital has also been caused by short term finance. Management is confident that the Group's negative cash flow will be resolved with the expected incoming Christmas and New Year period sales.
- Longview Estate has setup an online selling portal function which enables the company to be able to continue making sales during restrictions imposed by government imposed lockdowns and alert levels. The website had its first online sales in October 2021 and management believe online sales will increase during the Christmas and New Year holiday period.
- The Group has significant property at Longview vineyard which includes three residential housing units. This property is unencumbered. The Directors consider that this property could be utilised to raise debt at low rates from a major New Zealand bank if liquidity needs required it. They do not forecast that this will be necessary for the foreseeable future.
- The Group has considerable stocks of Finished Goods which will convert to positive cash inflows when settled by sale, with little or no cash outflow required.
- AFC Longview has made a shipment of a 40' container of Wine to China on 6 November 2021. This shipment includes over 7000 bottles of Merlot wine and over 3000 bottles of White Diamond wine.
- As disclosed in note 13, there are related party payables of \$ 815,443. It has been agreed that payment of these will be deferred until such time as the group has the liquidity to settle these liabilities.
- The group expects to meet its obligations for overdue trade payables from the sales of 40' container of wine and advances from Directors and Shareholders.
- In response to the Covid-19 pandemic, the Group has reduced the fixed cost base of the business. This has been achieved with the continuous reduction in Directors' fees and reduction in staff levels. The space taken at the Manufacturing facility premises has been reduced and surplus space offered for sub-letting.
- There are continued Covid-19 wage subsidies being available from New Zealand Work and Income and Resurgence Support payments from the Inland Revenue Department.
- Detailed budgets for the two operational segments have been prepared which supports the going concern assumption.
- 12 The key estimate in the budgets is the expected level of sales volumes of wine and cosmetic face masks.
- In Oct 2021, a contract to sell \$180,000 of wine was completed with a related party. 30% deposit received in advance. This is one of three expected contracts in FY22.
- The Group has significantly revised its domestic pricing strategy on the core product, White Diamond wine, which has already led to significantly increasing sales volumes at a positive Gross Margin.
- Based on the current lockdowns and restrictions due to covid, the Directors are anticipating sales in FY22 to be two thirds of the sales in the FY21 year.

### 1. ACCOUNTING POLICIES

### 1.5 Going concern (continued)

Sales of cosmetic face masks in New Zealand have been negatively affected by the closure of borders. The Group has created new distribution channels in China, its primary market for the product. This includes the China Duty Free Group with which the Group was previously involved in negotiations with to sell significant volume of boxes of product. Due to the current COVID outbreak continuing to swell in China and the stringent regulations imposed by authorities in order to reduce the virus's domestic transmission, China Duty Free Group has deferred the selection of new products until 2022. The previously expected sales of a significant volume of products may not be completed in the 2021 year.

### 1.6 Impact of Covid 19

Despite the government announcing an alert level 4 lockdown in mid August 2021 after one covid community case was detected, the total number of cases in the current outbreak has risen to 4,666. The containment measures implemented by the government are limiting the spread of COVID-19 and saving lives. One trade-off from introducing these measures is the economic cost. The restrictions placed in response to the Covid 19 pandemic have impacted businesses and the economy. Auckland remained at alert level 4 lockdown until 21 September 2021 at which stage Auckland moved to alert level 3.

On 8th November 2021, Prime Minister Jacinda Ardern announced that Auckland will move to step 2 of the alert level 3 framework. Under this stepped approach, retail will be able to open in Auckland along with public amenities such as museums and zoos. The government recently announced the next stage of the covid-19 response plan to provide a pathway out of lockdown and give vaccinated New Zealanders more freedom. The government have indicated that Auckland is likely to leave lockdown and move into the new Covid-19 Protection Framework, also known as the traffic light system from 29th November. Furthermore, the vaccination rates in Auckland have hit 90 percent first dose and based on current projections, Auckland should reach the 90 per cent double vaccinated milestone by the end of November. The new system will see most of the economy reopen, with fewer limits for businesses operating under the new vaccine certificate regime.

AFC Group has been significantly impacted by the three months of lockdown and the travel restrictions between regions due to the regional borders being closed. The restriction on domestic and international travel and cessation of non-essential services during the lockdown period have limited the sales and operations of the Group. The sale of the DDMASKs and Longview Wines have reduced as a result. The Group may potentially not be able to achieve forecasted sales due to the current market conditions and ongoing lockdown until the point at which the financial statements are signed.

The Group has taken the following steps as part of it's response to mitigate the risks associated with Covid-19.

- 1 AFC Longview Limited and AFC Biotechnology manufacture Co Limited has recently exported an order of a 40' container of wines and DDMasks to China.
- 2 AFC Longview Limited has started its online sales with a campaign for the White Diamond wine.
- 3 AFC and its subsidiaries have applied for the wages subsidy and Covid-19 Resurgence support payments.
- 4 AFC has received rental relief and deferred payment options by the landlord, insurance company and other lessors.
- 5 AFC has also subleased its showroom and office to third parties in order to recover some of its costs.
- The Chairman Mr Xia and director Mr Cao have voluntarily agreed to charge no director fees during the FY22. Other directors are continuing to provide the group with a 30% reduction in director fees.

#### 4. INCOME TAX

The Group calculates the period's income tax expense using 28% which is the tax rate that would be applicable to the expected total annual earnings (September 2020: 28%).

The Group has tax losses of \$4,127,204 bought forward from 31 March 2021. Losses can be carried forward indefinitely under New Zealand tax law (assuming shareholder continuity requirements are met and approval of the Inland Revenue Department is obtained).

The Group has not recognised a deferred tax asset on its Statement of Financial Position as at reporting date. In deciding whether to recognise the deferred tax assets, the Group has determined if the utilisation of deferred assets is probable and whether it is likely that sufficient and suitable taxable profits will be available in the future against which the reversal of temporary differences can be deducted.

The company has not issued any new shares during the period. All ordinary shares issued are fully paid. All ordinary shares rank equally with one vote attached to each fully paid ordinary share and have equal dividend rights and no par value.

The Group has not declared or proposed to pay any dividends for the period ended 30 September 2021 (September 2020: Nil).

Treasury shares are those shares acquired by the company from shareholders who exercised their minority buy back rights at the time shares were issued to NZ Silveray Group Limited. These shares are held by the company until the directors resolve to reissue the shares or to cancel the shares. At reporting date, the company held 37,082 treasury shares which were acquired during 2016.

# 6. CASH AND CASH EQUIVALENTS

|   | September<br>2021<br>\$ | March<br>2021<br>\$ |

| Cash at bank and on hand  Total cash and cash equivalents | <u>4,628</u><br>4,628   | 3,375<br>3,375      |

The carrying amount of cash and cash equivalents approximates their fair value. Cash at bank earns interest at floating rates on daily deposit balances. The group did not have an overdraft facility with the bank.

Management is confident that the Group's cash flow will be improved with the expected incoming Christmas and New Year period sales. The wine sales have been increasing after the level 4 lockdown. Management believe that sales will increase once Auckland and Northland exit out of the alert level three government imposed lockdown. In addition, the AFC Longview website has it's first online sales in October 2021 and management believe online sales will increase during the holiday period.

| Closing provision for closing stock         | (263,506)               | (335,809)           |

Inventory of \$263,506 has been written down to net realisable value/lower of cost (31 March 2021: \$335,809).

Assessing write downs for inventory obsolescence and net realisable value involves making estimates and judgements in relation to future selling prices between the most recent store stock counts and reporting date.

### 8. TRADE, OTHER AND RELATED PARTY RECEIVABLES

Trade debtors are non-interest bearing and receipt is normally on 30 days terms. Related party receivables are non-interest bearing and repayable on demand as disclosed in note 13.

The directors consider that there is no material difference between the carrying value and fair value of trade debtors and related party receivables. The Group's management considers that all financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality. The directors also consider that the receivables that are past due and not impaired are fully recoverable.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and related party receivables. The main component of this allowance is a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

Borrowings are initially recognised at fair value plus transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (plus transaction costs) and the redemption amount is recognised in the income statement over the period of the borrowings using the effective interest method. Borrowings are classified as non-current liabilities as the Group has an unconditional right to defer settlement of the liability 12 months after the balance sheet date.

Small business cashflow loan established and administered by the Crown to provide loans to assist small business impacted by the Covid-19 economic shock to support immediate cashflow needs and meet fixed costs. The interest rate for the loan is 3%. The Group will not be charged any interest on the loan if repay all the outstanding loan amount in full before 24 months date. The loan contract will be terminated when the Group have repaid all amounts owing to IRD.

### 16. INVESTMENT IN SUBSIDIARIES (continued)

All the subsidiaries are incorporated in New Zealand and have 31 March balance dates. They also apply uniform accounting policies with the parent company.

#### 17. SEGMENT REPORTING

The Group's operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments on an entity. The Group has determined the Group's Board of Directors as its chief operating decision-maker as the board is responsible for allocating resources and assessing the performance of the operating segments and making strategic and operating decisions. Income and expenses directly associated with each segment are included in determining each segment's performance.

The Group operates in a number of business segments in New Zealand. The Group has determined its operating segments into four segments, namely international marketing and distribution, vineyard and winery, manufacturing and corporate. These segments reflect the different type of industry sectors within which the Group operates. The Company is considered to be in the corporate operating segment.

Information regarding the operations of each reportable operating segment is included below.

### Vineyard and winery

AFC Longview Limited, a vineyard and winery based in Whangarei which produces and sells a number of varietals and blends of wine.

#### Manufacturing

AFC Biotechnology Manufacture Co Limited which manufactures disposable face masks.

#### Corporate

The operations of this segment include providing accounting, management and administration services to other segments of the Group. AFC GoGlobal Ecommerce Limited and AFC Education Investment Limited did not trade during the period and have been included under this segment. AFC International Trading Group Limited, which sources packaged food products, cosmetics and health products. National Dairy Group Limited, which sources food products for distribution for China. National Dairy Group Limited was not trading during the period.

No operating segments have been aggregated to form the above reportable operating segments. The Group's taxation has not been allocated to segments and is included centrally. Financing has been allocated to segments. Sales between the segments of the Group are carried out at an arm's length basis in a similar manner to transactions with third parties.

The following tables present revenue and profit information for the Group's operating segments for the six months ended 30 September 2021 and 2020, respectively:
