For and on behalf of the Board of Directors who authorised the issue of these interim financial statements on 23 August 2022.

Andy Borland, Managing Director

Notes to the condensed consolidated interim financial statements for the six months ended 30 June 2022

1. GENERAL INFORMATION

Scales Corporation Limited (the "Company" or "Scales") is a for-profit entity domiciled and registered under the Companies Act 1993 in New Zealand. It is an FMC reporting entity for the purposes of the Financial Markets Conduct Act 2013 and the Financial Reporting Act 2013. The Group consists of Scales, its subsidiaries and joint ventures. The principal activities of the Group are to grow apples, provide logistics services, export products, provide insurance services to companies within the Group and operate storage and processing facilities.

2. COVID-19

On 24 March 2020, the New Zealand Government announced a number of Orders under the Health Act 1956 and the Epidemic Preparedness Act 2006 to restrict certain activities for the purposes of preventing the outbreak and spread of COVID-19. The Group's business units were classified as "essential services" and complied with the respective health requirements within each jurisdiction they operated in.

As at the date of authorisation of these financial statements, the Group was operating at the Orange Level of the COVID-19 Protection Framework in New Zealand. The Group operations outside of New Zealand continue to be also impacted by the COVID-19 pandemic.

(a) Uncertainties, estimates and judgements

The economic and public health conditions globally have impacted these trading results, and the current uncertainties are expected to impact the results in the future.

The risks impacted by the uncertainty arising from COVID-19 include credit risk and market risks which impact the Group's assessment of expected credit losses, carrying value of inventories and the recoverability of non-current assets and goodwill.

The Directors have assessed the impact of COVID-19 on these judgements and estimates and concluded that no significant changes to the carrying values of assets or liabilities are currently necessary.

3. BASIS OF PREPARATION

These unaudited condensed consolidated interim financial statements have been prepared in accordance with Generally Accepted Accounting Practice ("GAAP"). They comply with the New Zealand Equivalent to International Accounting Standard 34 (NZ IAS 34) Interim Financial Reporting and International Accounting Standard 34 (IAS 34) Interim Financial Reporting, as applicable for profit orientated entities. The significant accounting policies applied by the Group during the period have been applied consistently to all periods presented in these condensed consolidated interim financial statements. These financial statements should be read in conjunction with the financial statements and related notes included in the Company's Annual Report for the year ended 31 December 2021.

The information is presented in thousands of New Zealand dollars unless otherwise stated.

5. SEASONALITY OF BUSINESS

All business segments are subject to seasonal fluctuation. The apple crop has been picked and packed and the export programme is well under way as at 30 June. Higher volumes are processed through the pet food ingredients plants in the first half of the year due to the seasonal nature of the meat industry and there is greater utilisation of logistics services over the first half of the year as seasonal products are shipped to export markets.

At 30 June the harvested crop held in inventory is valued at fair value less estimated costs to sell. At 31 December the unharvested crop is valued at fair value less estimated costs to sell. Both the harvested crop at 30 June and the unharvested crop at 31 December are included in agricultural produce.

Foreign currency derivative instruments

The Group is exposed to currency risk as a result of normal trading transactions denominated in foreign currencies. The Group uses foreign currency derivative financial instruments to manage its currency risk. The fair value of foreign currency derivative financial instruments at the reporting date is determined on a discounted cash flow basis whereby future cash flows are estimated based on forward exchange rates and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties. The Group's forward foreign exchange contracts and foreign exchange options are classified as Level 2 in the fair value hierarchy.

These foreign currency instruments are designated as cash flow hedges in order to reduce the Group's cash flow exposure resulting from movements in foreign currency exchange rates on anticipated future transactions. It is anticipated that the sales will take place during the 2022 to 2027 financial years at which stage the amount deferred in equity will be released into profit or loss.

10. FINANCIAL INSTRUMENTS AND FAIR VALUE DISCLOSURES (CONTINUED)

Interest rate swap contracts and forward rate agreements

The Group is exposed to interest rate risk as it borrows funds at floating interest rates. Management monitors the level of interest rates on an ongoing basis and uses interest rate swaps and forward rate agreements to manage interest rate risk.

Under interest rate swap contracts and forward rate agreements, the Group agrees to exchange the difference between fixed and floating interest rate amounts calculated on agreed notional principal amounts. Such contracts, some of which may commence in future reporting years, enable the Group to mitigate the risk of changing interest rates on the cash flow exposures on the issued floating rate debt. The fair value of these contracts at the reporting date is determined by discounting the future cash flows using the forward interest rate curves at reporting date and the credit risk inherent in the contracts. The average contracted fixed interest rate is based on the notional principal amount at balance date. The Group's interest rate swap contracts and forward rate agreements are classified as Level 2 in the fair value hierarchy.

These interest rate swap contracts and forward rate agreements, exchanging floating rate interest amounts for fixed rate interest amounts, are designated as cash flow hedges in order to reduce the Group's cash flow exposure resulting from floating interest rates on borrowings. The interest rate swap and forward rate agreement payments, and the interest payments on the loans occur simultaneously, and the amount deferred in equity is recognised in profit or loss over the period that the floating rate interest payments on debt impact profit or loss.

11. RELATED PARTY DISCLOSURES

(a) Transactions with related parties

Certain directors or senior management have relevant interests in companies with which Scales has transactions in the normal course of business. A number of Scales directors are also non-executive directors of other companies. Any transactions undertaken with these entities have been entered into in the ordinary course of business on a third party arm's-length basis.
