Probi agreement enhanced to strengthen alliance

BLIS Technologies Limited (NZX: BLT) has signed an agreement with Probi AB (Probi) to enhance their collaborative efforts in the global probiotic market. This agreement extends the existing Technology License & Distribution Agreement and provides Probi exclusive rights to BLIS K12® and BLIS M18® across the USA, Canada, and certain EMEA markets.

For the first time, this agreement introduces pet nutrition into Probi's licensed territories, tapping into the burgeoning pet health market and responding to increasing consumer demand for high-quality probiotic solutions for pets.

“We are excited to deepen our partnership with Probi,” said Scott Johnson, CEO. “This agreement not only strengthens our foothold in human wellbeing but also aligns with the growing opportunity to provide innovative solutions in pet health.”

This collaboration underscores our shared vision to lead in the rapidly expanding probiotic market and deliver exceptional value to our customers and stakeholders.
