

AIR NEW ZEALAND 

Investor Day 2024

— 25 November 2024

ZK-DKP

A STAR ALLIANCE MEMBER 

Important notice and disclaimer

This presentation is given on behalf of Air New Zealand Limited (NZX: AIR and AIR030; ASX: AIZ). The information in this presentation:

- is provided for general information purposes only, does not purport to be complete and is not an offer or invitation for subscription, purchase, or a recommendation of securities in Air New Zealand
- should be read in conjunction with, and is subject to, Air New Zealand's consolidated financial statements for the year ended 30 June 2024, prior annual and interim reports and Air New Zealand's market releases on the NZX and ASX
- is current at the date of this presentation, unless otherwise stated. Air New Zealand is not under any obligation to update this presentation after its release, whether as a result of new information, future events or otherwise
- may contain information from third parties. No representations or warranties are made as to the accuracy, fairness or completeness of such information (or any other information contained in this presentation)
- refers to the year ended 30 June 2024 unless otherwise stated
- contains forward-looking statements of future operating or financial performance. The forward-looking statements are based on managements and directors' current expectations and assumptions regarding Air New Zealand's businesses and performance, the economy and other future conditions, circumstances and results.
- These statements are susceptible to uncertainty and changes in circumstances. Air New Zealand's actual future results may vary materially from those expressed or implied in its forward-looking statements and undue reliance should not be placed on any forward-looking statements. No representations or warranties are

made as to the likelihood of fulfilment of any forward-looking statements or any events, results or targets expressed or implied in any forward-looking statements.

- contains statements relating to past performance which are provided for illustrative purposes only and should not be relied upon as a reliable indicator of future performance
- is expressed in New Zealand dollars unless otherwise stated and figures, including percentage movements, are subject to rounding

Air New Zealand, its directors and employees disclaim and exclude all responsibility and liability whatsoever for any direct or indirect loss arising from the use or reliance on any information contained in this presentation or any information supplied in connection with it (including any oral presentation of these slides by Air New Zealand). Nothing in this presentation constitutes financial, legal, regulatory, tax or other advice.

Non-GAAP financial information

The following non-GAAP measures are not audited: Net Debt and EBITDA. Amounts used within the calculations are derived from the audited Group annual financial statements and Five-Year Statistical Review contained in the 2024 Annual Report. The non-GAAP measures are used by management and the Board of Directors to assess the underlying financial performance of the Group in order to make decisions around the allocation of resources.

Refer to slide 84 for a glossary of the key terms used in this presentation.

Unless otherwise stated, all time periods referred to in this presentation are for the financial year, being 1 July to 30 June. For example, '2024' refers to the 2024 financial year.

Agenda

1:00 – 1:20	Strategic priorities	Greg Foran
1:20 – 1:50	Network strategy	Mike Williams
1:50 – 2:20	Commercial growth	Jeremy O'Brien
2:20 – 2:40	Our loyalty opportunity	Kate O'Brien
2:40 – 3:00	Break	
3:00 – 3:25	Digitalisation of our airline	Nikhil Ravishankar
3:25 – 3:45	People and culture	Nikki Dines
3:45 – 4:15	Fleet and financial priorities	Richard Thomson
4:15 – 5:00	Q&A	

Strategic priorities

— Greg Foran
Chief Executive Officer

Air New Zealand –
voted 2024's best airline in the world

Condé Nast
Traveler

Key messages you should take away from today

We have a high-performing, engaged team with a customer-centric focus

We will sustain our leading position in New Zealand by leveraging deep competitive strengths

Premiumisation, ancillary and loyalty expansion, alongside disciplined cost control will power future earnings growth

We are unlocking value through digital transformation and our people

Our strong balance sheet provides us with ability to grow and maximise shareholder returns

Enduring global demand supports continued growth in air travel

Covid experience proved yet again that people value connections...

Global outlook - air passenger journeys (billions)

Source: IATA Global Outlook for Air Transport 2024

...which is core to our purpose as a business

Enrich our country by connecting New Zealanders to each other and New Zealand to the world

Air New Zealand is a leading player in an attractive premium leisure market

Air travel provides critical infrastructure support to the New Zealand economy

Strong Kiwi propensity for outbound international travel is expected to continue

Competitors

20%

Air New Zealand

80%

Top 5 countries globally by 2033 forecast trips per capita¹

¹ Airbus Global Markets Forecast for countries with populations of more than 4 million.

We are navigating ongoing global industry constraints with strategic solutions

Industry constraints

Engine issues and shop capacity

OEM delivery delays

Supply chain constraints

Workforce shortages

Mitigations we have implemented

Swiftly negotiated leased aircraft and engines

Increased inventory of parts and spares

Network and schedule adjustments, including temporary suspension of Chicago

Leveraging our longstanding OEM relationships

Simplifying hiring processes for offshore aircraft engineers

Near-term outlook shaped by aircraft availability and other economic conditions

Observing a continuation of external conditions previously highlighted at 2024 Annual Results

Planning for up to 6 Airbus neo aircraft and up to 4 Boeing 787 aircraft out of service for the majority of the 2025 financial year due to global engine maintenance delays

New Zealand domestic demand remains soft, particularly government-purpose travel; early signs of improvement in corporate bookings

Targeted reductions in US competitive capacity over the peak Northern Winter season

First half guidance for the 2025 financial year announced on 25 November 2024

In the context of these conditions, and noting several one-off items in the first half, the airline currently expects earnings before taxation for the first half of the 2025 financial year to be in the range of **\$120 million to \$160 million**.

This includes several one-off items in the first half:

- **~\$10 million** of unused travel credit breakage
- **~\$30 million** of compensation from engine manufacturers relating to prior periods (as part of a broader compensation package)
- **~\$20 million** gain on the sale and leaseback of 4 A320 aircraft

This guidance range also assumes an average jet fuel price of US\$91/barrel for the first half.

For the full disclosure, please refer to the NZX announcement made on 25 November 2024.

We are building from a foundation of unique competitive advantages...

Iconic brand and service culture

Unmatched domestic network

Investment grade credit rating

Largest loyalty programme in New Zealand

Simplified fleet configured for the New Zealand market

Diversified international network and deep joint venture partnerships

...strengthened further by significant progress we have made for our people, customers and operation

People

- ✓ Circle of Safety
- ✓ Sustainable jobs programme
- ✓ Engineers on the green list
- ✓ Mangopare pilot cadetship
- ✓ 13 collective agreements ratified¹
- ✓ Cross functional operating model
- ✓ Hired **>3,000** people as borders reopened
- ✓ **>200,000 hours** of training for new people in operational areas

¹ For the 2024 financial year, unless otherwise noted

Customer

- ✓ Improved digital app
- ✓ Improved IFE
- ✓ Auckland check-in experience
- ✓ Baggage tracking within our app
- ✓ Rolled out iFly platform for loyalty programme
- ✓ New food & beverage onboard
- ✓ **10** new ground partners added to Airpoints ecosystem in the last two years
- ✓ Reinvigorated Seats-to-Suit offering
- ✓ Free Wifi on international aircraft
- ✓ Rolled out Live Chat for Contact Centre

Operation

- ✓ Paperless flight deck
- ✓ Ops Collab tool
- ✓ New flight planning software
- ✓ Modernised ground service equipment
- ✓ Mobile devices across operational workforces
- ✓ Migration of data centres to the cloud
- ✓ Biometric boarding in select ports
- ✓ Introduced mobile bag-scanning app for staff
- ✓ Bag-drop improvements increasing throughput

Our Kia Mau strategy is focused on maximising shareholder value

Increased profitability driven by three pillars:

Grow Domestic

Be the best-connected country in the world, getting customers to any of 20+ destinations within two hours

Elevate International

An international network focused on premium leisure customers and cargo

Lift Loyalty

A supercharged loyalty programme, loved by members and used for everything from free flights to buying everyday items

Supported through investment across four key enablers:

Brilliant Basics

Do it right, first time every time

People and Safety

Putting health, people and safety first

Sustainability

Committed to meaningful action to reduce our environmental impact

Digital Dexterity

Super charge customer experiences and advance operational efficiency

Targeting profit improvement from key transformation initiatives

Transformation initiatives expected to contribute a cumulative \$300 to \$400 million benefit to EBITDA performance by 2028

We are positioned for stronger profitability as headwinds ease

Strong foundations that we continue to nurture for success

Focus to structurally improve our business and profit through the cycle

- ✓ Safety first, always
- ✓ Engaged and empowered culture
- ✓ Strong brand and customer loyalty
- ✓ Enviable network positions
- ✓ Operational focus, every day
- ✓ Robust balance sheet

- Capital-efficient network growth
- Increased premium mix
- High growth ancillary products
- Supercharged loyalty programme
- Digitally-led
- Stronger shareholder returns

Our network strategy

— Mike Williams

Chief Transformation and Alliances Officer

We operate in a market with a need for strong air connectivity

Critical infrastructure

Domestic geography relies on air travel to connect regions

Isolated

Closest neighbour 2,000 kilometres away

Trade dependent

10% of New Zealand's GDP reliant on air connectivity

Regional growth

Asia Pacific has highest growth forecast for air travel

Percentage of GDP facilitated by air travel

Source: Aviation: Benefits Beyond Borders utilising Oxford Economics analysis and data from 2019.

Five key features drive our network strength

**Diversified
network**

**Geographically
advantaged**

Cost position

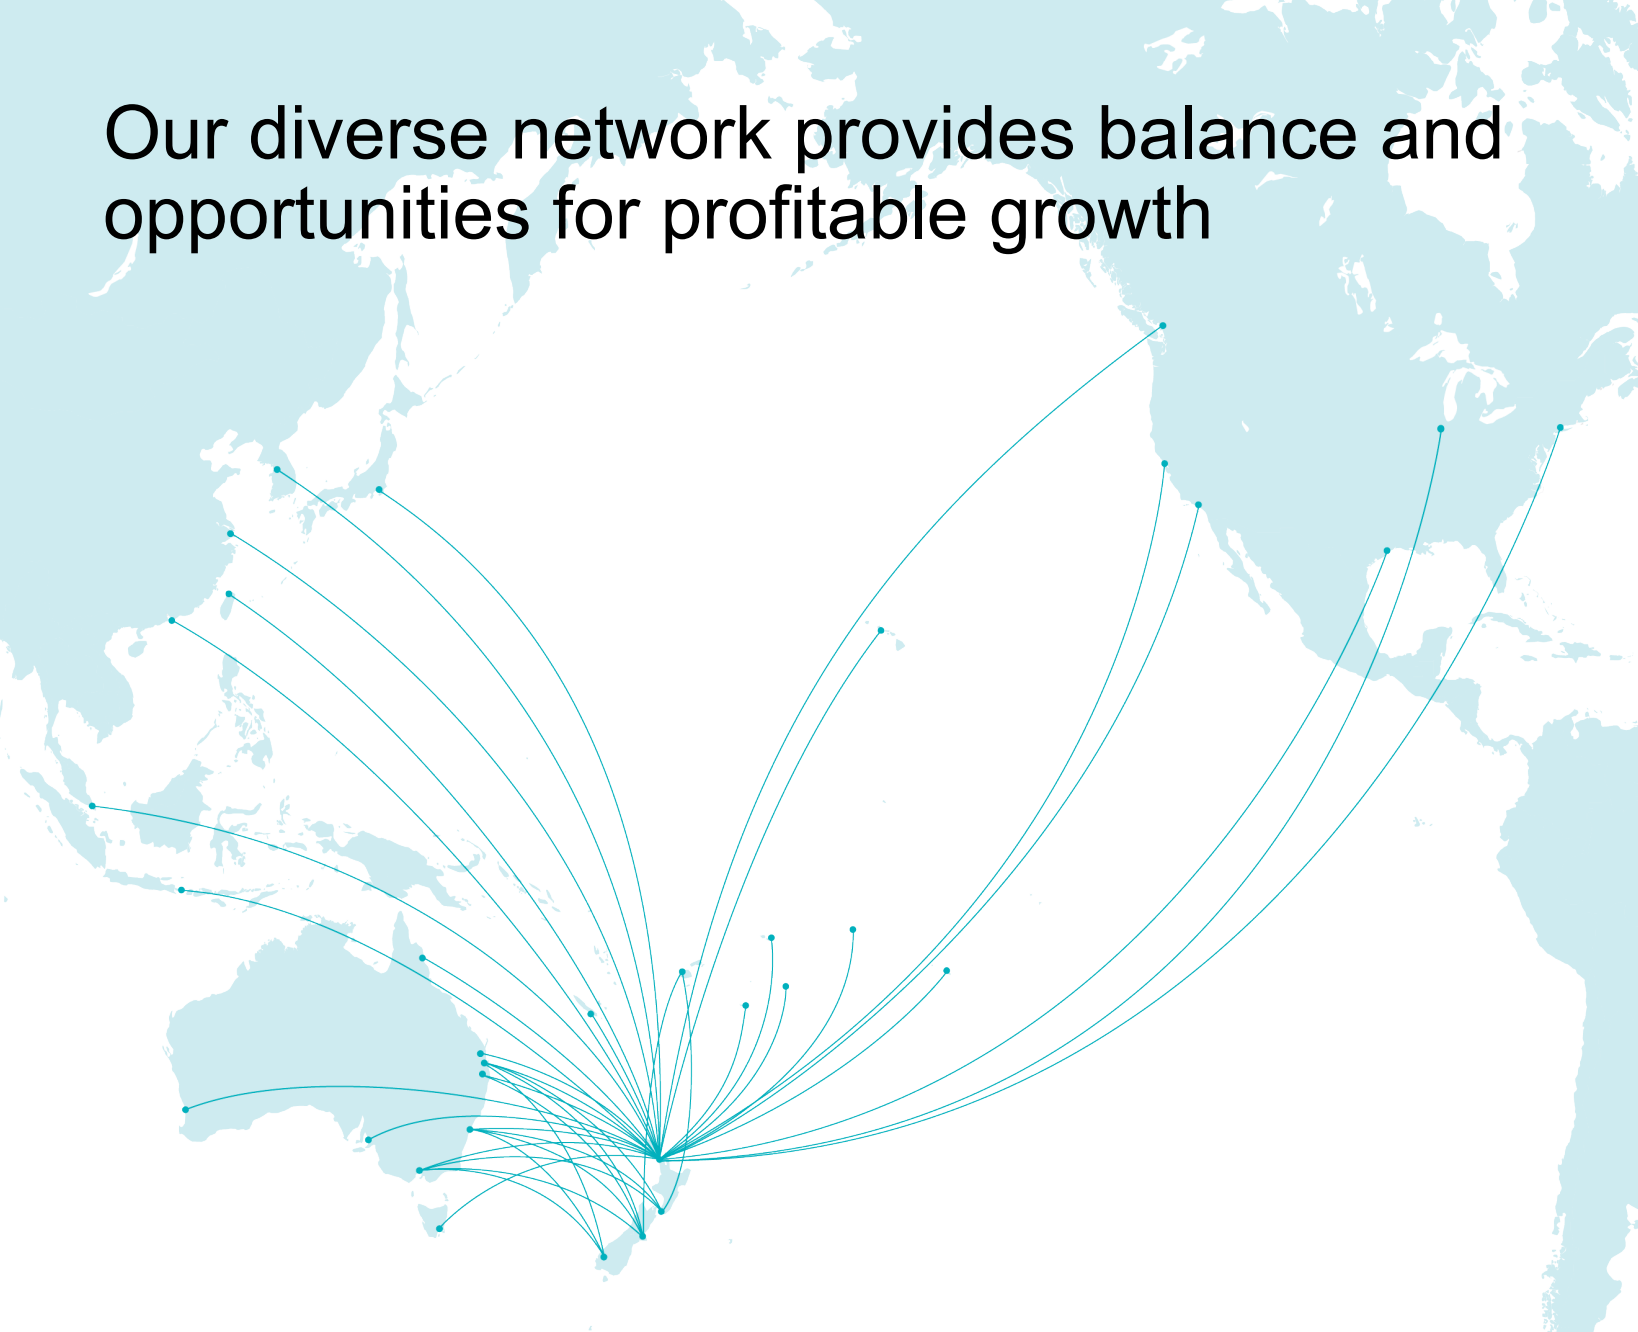

**Premium-
leisure**

Alliance-driven

We operate where we have a strong right to win

Our diverse network provides balance and opportunities for profitable growth

Geographic diversity across domestic, short-haul and long-haul markets

Customer mix comprised of premium leisure, business, visiting friends and relatives (VFR) as well as cargo

Varied market maturity as we build into new destinations

Each route group has distinct dynamics and opportunities

Domestic

-  **~20** destinations
-  **~400** flights daily
-  **11 million** passengers annually

Tasman & Pacific Islands

-  **~16** destinations
-  **~55** flights daily
-  **4 million** passengers annually

Long-haul

-  **~14** destinations
-  **~21** flights daily
-  **2 million** passengers annually

Note: passenger numbers reflect the 2024 financial year.

#1 positioned network across the key regions we serve

Australia #1

- ~40% passenger share
- Broadest network of any airline serving New Zealand
- The right product with both Seats-to-Suit and wide-body offering on major markets

Pacific Islands #1

- ~60% passenger share
- Broadest network of any airline
- Opportunistically maximise revenue with both Seats-to-Suit and wide-body optionality

North America #1

- ~70% passenger share
- Natural hub connecting New Zealand, Australia, Canada and the US
- We fly non-stop to more destinations in the US than any competitor

Asia #1

- ~35% passenger share
- Network breadth and strong alliance partners
- Shifting to increasing premium demand in select markets
- Distance provides insulation

Our network captures ~45% of total demand to/from New Zealand

Note: Market positions represent Air New Zealand's passenger share to and from New Zealand compared with competing airlines.

Short-haul focus on competitive unit costs and providing quality customer experiences

Prior fleet investment means our domestic network can deliver the most competitive unit costs

A320ceo
171 seats

A321neo
217 seats

● Operating costs ● Gross margin ● Incremental operating costs

1.5 - 2x
Contribution margin

Short-haul network principles

Focus on the **best cost structure** for the mission

Short sector lengths justify **single class cabin** economics

Provide high service quality and a premium ground experience

Long-haul proposition centered on premium leisure, with further premiumisation to come

We started focusing on cabin premiumisation before Covid

Our retrofit programme and new deliveries will take this further

~30% increase in premium cabin mix by 2030 (available seats)

Premium cabin growth

Our global network is enhanced by strong alliance partnerships with leading peer airlines

UK / Europe

India

China / Hong Kong

Southeast Asia

Australia

United States

4 immunised joint ventures

14 Codeshare partners

Partnerships driving customer and financial value

Broader customer network

Number of destinations using Air New Zealand code:

Efficient use of capital

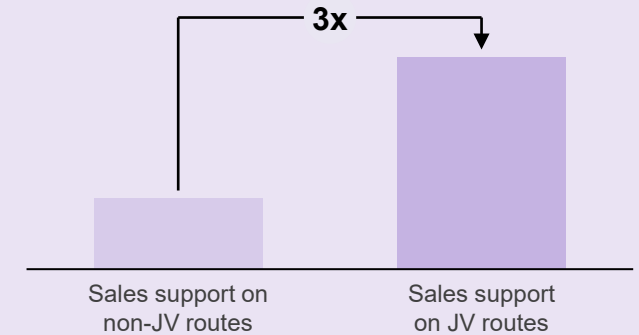

Share of Long-haul capacity deployed to JV hubs:

Increased sales and distribution

Connecting partner revenue as a percentage of total passenger revenue:

Growth will contemplate new market opportunities

There are several international markets visited by New Zealanders where we don't currently fly

- | | |
|-------------------|-----------------|
| 1. Australia | 11. Indonesia |
| 2. United States | 12. Philippines |
| 3. China | 13. Canada |
| 4. United Kingdom | 14. Germany |
| 5. Fiji | 15. Singapore |
| 6. India | 16. Thailand |
| 7. Japan | 17. Taiwan |
| 8. Cook Islands | 18. Malaysia |
| 9. Korea | 19. France |
| 10. Samoa | 20. Hong Kong |

● Market not serviced by an Air New Zealand-operated flight

Source: Stats NZ top 20 international destinations travelled to by New Zealanders in calendar year 2023.

Looking ahead, expecting average network growth of 3% to 4% as aircraft availability issues alleviate

Domestic expected to grow at a CAGR of ~2% to 3%

Domestic capacity growth (Billion ASKs)

International expected to grow at a CAGR of ~3% to 5%

International capacity growth (Billions ASKs)

Commercial growth

— Jeremy O'Brien
General Manager, International Airline

We are well set up to accelerate our commercial success

Strong foundational building blocks

Largest home market carrier

Internationally the airline of choice for New Zealand

Appeal across a diverse customer mix

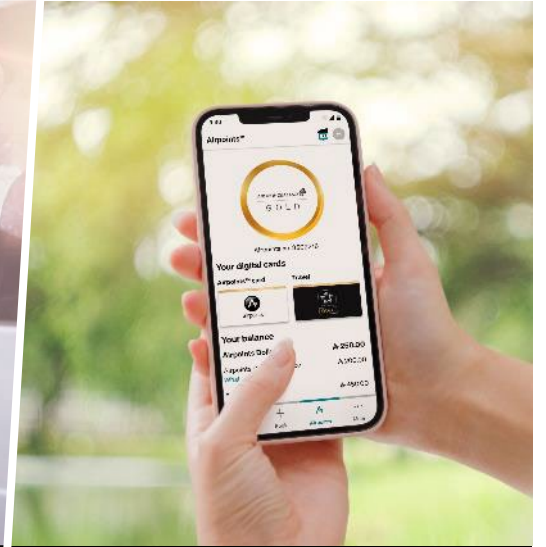

Our home market advantage is unmatched, and we plan to keep it that way

Iconic brand

**Unrivalled
distribution
footprint**

**Leading loyalty
programme**

Internationally we carry 3 million more passengers than our next largest competitor

Outbound passengers - 55%

- Home market advantage
- Powerhouse brand strengthened by loyalty programme
- Connectivity through strong joint venture partners
- Unrivalled distribution footprint

Inbound passengers - 35%

- Long-term approach taken to market investment
- Offshore sales offices promoting New Zealand as a destination
- Strong marketing partnerships with key local partners
- Joint venture distribution channels act as a marketing multiplier

We have a balanced customer mix which supports our diversified network

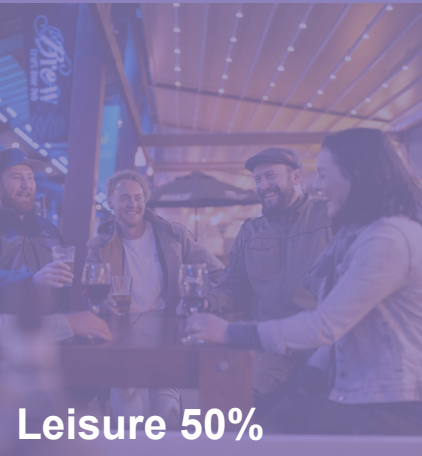

DOMESTIC

65% of passengers
~\$2B of passenger revenue

INTERNATIONAL

35% of passengers
~\$4B of passenger revenue

Percentages refer to proportion of passengers by customer segment.

Customer investments are driving improved satisfaction scores and commercial outcomes

Five key growth opportunities accelerate our foundational building blocks

Strong foundational building blocks

Largest home market carrier

Appeal across a diverse customer mix

Internationally the airline of choice for New Zealand

Accelerated by five key growth opportunities

1

Increased premiumisation in long-haul

2

NextGen revenue management

3

Growing ancillary revenue conversion and customer offerings

4

Enhancing Airpoints™ redemption opportunities and member benefits

5

Maximising the value of cargo

We are further enhancing our premium cabin mix, while also creating opportunities to upsell across the entire aircraft

Will be available for existing 787 retrofit as well as new 787 aircraft

Our premium network and fleet position us strongly to win premium leisure travellers

RASK improvement from increased mix of premium cabins

Illustrative RASK increase on North America routes, driven by higher premium seat mix

Further rollout of NextGen revenue management will drive improved RASK

Adoption of a NextGen revenue management system

We are focused on driving increased ancillary revenue conversion rates and customer offerings

Targeting ancillary revenue growth CAGR of ~10%

Note: Ancillary revenue availed is reflected in either Passenger Revenue or Other Revenue within the Company's Statement of Financial Performance depending on the product purchased.

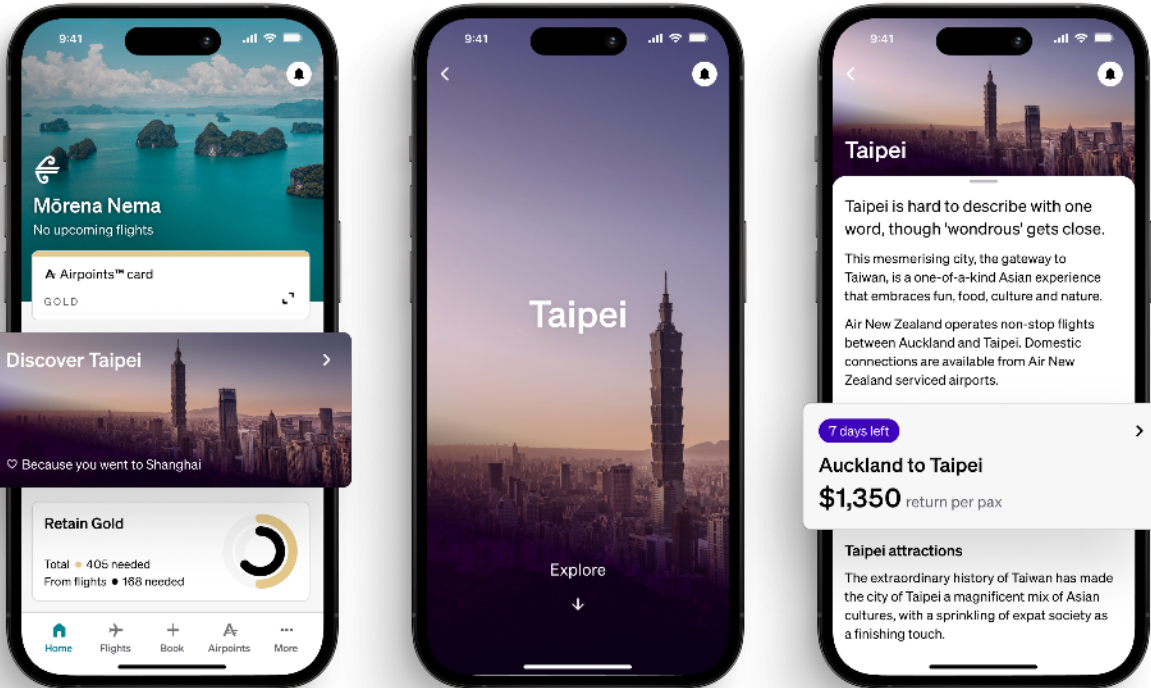

Further opportunity to grow revenue premium through enhanced personalisation

Average fare premium from Airpoints™ members (indexed)

Future opportunity to personalise

Cargo growth underpinned by focused investment

We are modernising our cargo operations

Digital transformation

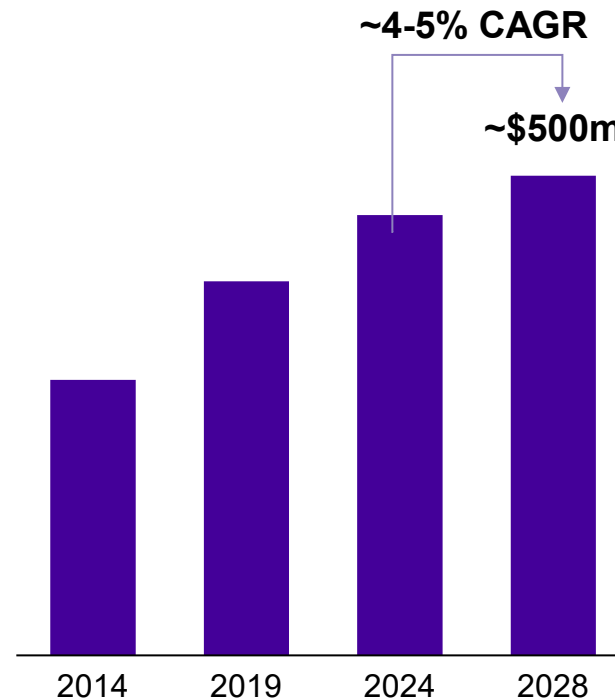

Commercial optimisation

New cargo terminal

Revenue growth from efficiencies, optimisation and network growth

Targeting total revenue growth of 4% to 6% driven by network growth and transformation benefits

Transformation initiatives expected to contribute a cumulative \$300 to \$400 million benefit to EBITDA performance by 2028

Revenue transformation benefits contributing towards targeted **operating revenue growth CAGR of 4% to 6%**

Targeting total capacity growth of 3% to 4% CAGR from 2024 to 2028

Operating revenue expected to grow ~1% to 2% above capacity

Our loyalty opportunity

— Kate O'Brien
General Manager, Loyalty

We expect Loyalty to generate \$40 to \$60 million in incremental EBITDA by 2028

Built on strong foundations, our Airpoints programme is a core pillar of our strategy

Strong member growth

Number of members (millions)

Members drive a revenue premium

Average fare premium (indexed)

Strong and stable cashflows

Loyalty cashflows (millions)

Recent investment is delivering greater value for both members and the airline

1

Sales to third party partners

2

Airpoints proprietary products

3

Flight redemptions

4

Additional member benefits

Underpinned by a new loyalty digital platform that allows enhanced experience, acceleration of partner onboarding and superior data and insights to commercialise

We have a strong portfolio of partners, with opportunities for accelerated growth....

Financial partners drive ~70% of loyalty cashflows

- Largest single channel for APD issuance
- Further interchange regulation may create risk – mitigations in place

Members spend ~3% of NZ GDP on APD eligible cards

> 35 Retail partners driving increasing engagement

- Retail network increases cash flow and engagement
- A diverse range of partners across the grocery, fuel, DIY and home & living sectors, giving the programme depth and breadth
- Strong pipeline of new partnerships in development

...and the ability to increase contribution by expanding our proprietary products

The Airpoints Store has grown into a \$50m+ eCommerce business

Turnover (APDs + Cash)

¹ Refers to high value customers.

The scale and strength of our membership engagement create a growth platform for a wide range of new business models

Further growth in Airpoints Store, Koru and OneSmart

Airpoints branded / white labelled products

Partner services

We have seen strong growth in redemption of Airpoints Dollars™ on flights

Members continue to receive significant value from our transparent redemption structure

Number of APD redemptions on flights (millions)

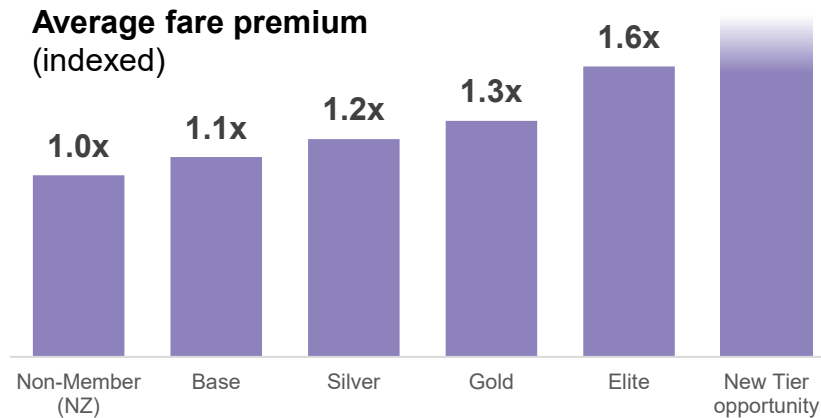

Opportunities to drive further flight redemptions

- 1 >80% of APDs redeemed are on the airline
- 2 Redemptions are as valuable as a cash sale
- 3 Exciting redemption opportunities being developed for future release

We will further strengthen loyalty to the airline through investment in member benefits

New tier above Elite

Digitalisation of our airline

— Nikhil Ravishankar
Chief Digital Officer

We are accelerating our profit potential through digitalisation

Strengthen our **digital foundations**

Win on **customer experience**

Maximise revenue potential

Unlock **operational efficiencies** at pace

Capability and capital-light investment enabling structurally stronger financial returns

Strengthening our digital foundations sets us up for success in future delivery

Significant progress across 4 key technology platforms...

...enabling us to move at pace

- ✓ Agility and speed
- ✓ Trust and safety
- ✓ Resilient and adaptable
- ✓ Digital productivity

¹ Air New Zealand's connectivity strategy is a combination of Low Earth Orbit (LEO) access on the ground and in the air, software defined networks, and mobile first.

Delivering transformation initiatives, with a clear roadmap to unlock further commercial value

Win on customer experience

- Released new Air New Zealand app
- Self-service disrupt and cancellation management
- Faster kiosk check in
- Baggage tracking within our app
- One-click check-in
- Biometric boarding at US, HKG
- Free Wi-Fi across all international fleet
- Seat select on partner airlines
- NextGen IFE experience, content, live TV
- NextGen contact centre platform
- Live Chat channel for customers
- Automated refunds, compensation processing
- Automated lounge access
- Starlink Wi-Fi on domestic flights

Maximise revenue potential

- Revamped Seats-to-Suit offering
- NextGen passenger revenue management
- Dynamic Pricing Engine
- Availability Cascading
- NextGen cargo revenue management
- New payment channels
- New Products: Neighbour-free, Economy Stretch
- Loyalty Replatform
- Airpoints store expansion
- Refreshed Tiers and Benefits
- Airports member-only redemption
- Enhanced SME loyalty product
- NextGen Booking Engine
- New Distribution Channel (NDC)
- Targeted and dynamic personalisation offers

Unlock operational efficiencies at pace

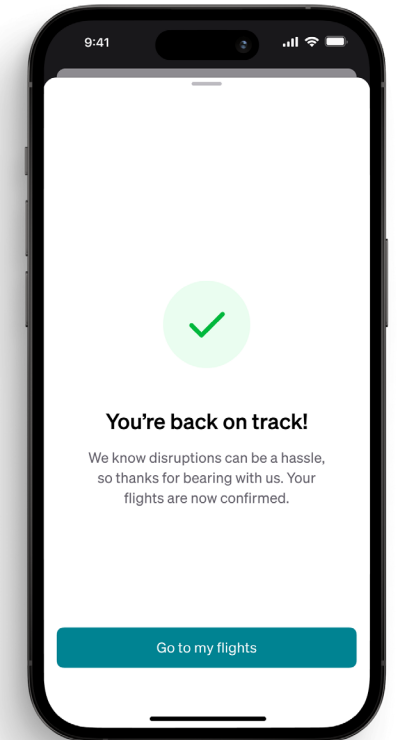

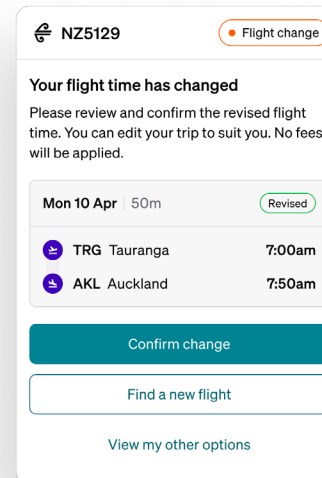

- Paperless flight deck
- Ops Collab tool
- New flight planning software
- Tour of Duty pilot and cabin crew app
- GenAI products
- iPad kiosks at airport check-in
- Aircraft tail allocation tool
- Predictive maintenance
- Biometric boarding
- Mobile bag-scanning app
- Bag-drop improvements increasing throughput
- Catering management platform
- Flight Crew and Airport workforce management
- Cargo management system

Winning on customer experience

Case study: Amplifying customer experience and self-service capability

3 years ago	→	Today
No Self-service in disrupt situations		~65% Ability to self-service in a disrupt
~20% Seamless online check-in		~60% Seamless online check-in

We value our union relationships and invest time to align on strategic priorities

Long-term value

Strategic engagement
strategy delivering real value

Transparency

Regular engagement
and honest two-way
conversations

Simplification

Collaborating on cost
improvements and
efficiencies

Implementing a cross-functional operating model is enabling delivery on our transformation ambitions

An operating model focused on delivering more, faster, with confidence

Established hundreds of smaller, empowered, **cross-functional teams**

Using a **quarterly business rhythm** to synchronise the airline at pace

Delivery model emphasises **rapid iteration** and frequent deployment

Broad-based roll out to ~60% of organisation

Investing in our people and their well-being drives clear value for our customers and our airline

Higher engagement

Increased wellness and safety

Strong retention

- Improved operational performance
- Increased roster certainty
- Less overtime
- Discretionary effort
- High customer satisfaction and loyalty
- Continuous improvement feedback loop
- Lower training costs
- Improved productivity
- Consistent customer service quality

Fleet and financial priorities

— Richard Thomson
Chief Financial Officer

Our strong balance sheet provides flexibility and opportunity for growth and shareholder returns

Net Debt / EBITDA¹ remains below the target range...

...and a relatively young fleet age² means less pressure from aircraft replacement

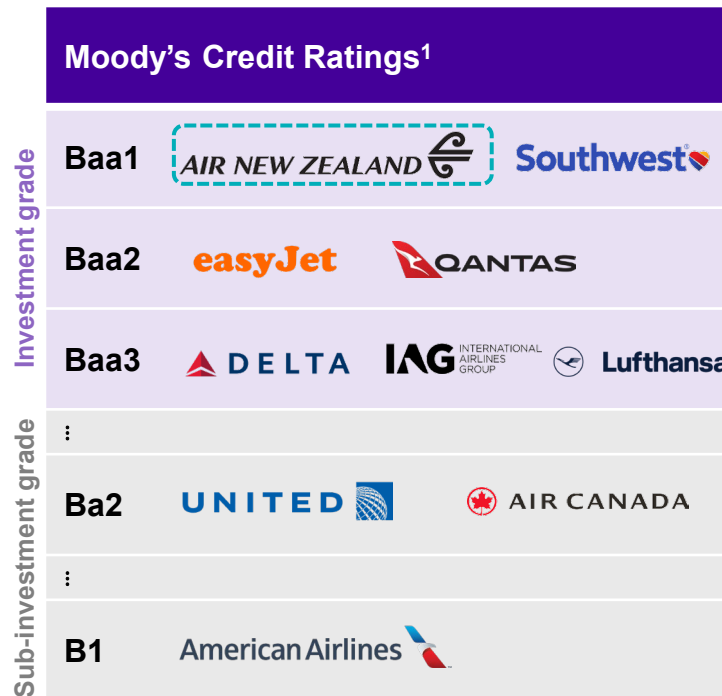

¹ Reflects Air New Zealand's net debt as a multiple of reported last 12 months EBITDA.

² Source: CapIQ. Peer set comprises Qantas, Singapore Airlines, United, Lufthansa, Air France, American Airlines, Delta, Air Canada and IAG.

Investment grade credit rating provides funding optionality and low cost of capital

One of the strongest rated airlines

More diversified funding³

At a competitive cost

Weighted Average Margin⁴ as at 30 June 2024

USD	~1.00%
JPY	~0.25%
EUR	~0.55%

¹ Source: Moody's as at 12 November 2024. Shows select peer airlines rated by Moody's.

² 2019 has been adjusted to be as at 1 July to reflect the implementation of IFRS 16 (lease accounting). Refer note 25 of Air New Zealand's 2019 financial statements.

³ Finance leases are lease liabilities with purchase options. Operating leases are lease liabilities without purchase options.

⁴ Margin on floating rate secured debt and finance lease facilities. Interest rates payable equal floating rate benchmarks in each currency plus margin in each facility.

Our capital management framework provides strength and flexibility to make decisions for the long-term

Maintain financial resilience and flexibility

- Target liquidity range of \$1.2 billion to \$1.5 billion
- Net Debt to EBITDA ratio of 1.5x to 2.5x

Underpinned by our commitment to maintain investment grade credit rating metrics

Invest in core operations

- Fleet and infrastructure investments above WACC through the cycle
- Investment to support the airline's decarbonisation ambitions

Distributions

- Ordinary dividend pay-out ratio of 40% to 70% of underlying net profit after tax (NPAT)¹
- Return excess capital via special dividends or share buybacks

Growth capex

- Disciplined investment in value accretive capex
- Target ROIC above pre-tax WACC

¹ The payout ratio for each of the interim and final dividends is calculated based on the rolling 12-month NPAT, which is divided by two, to reflect the six-monthly period.

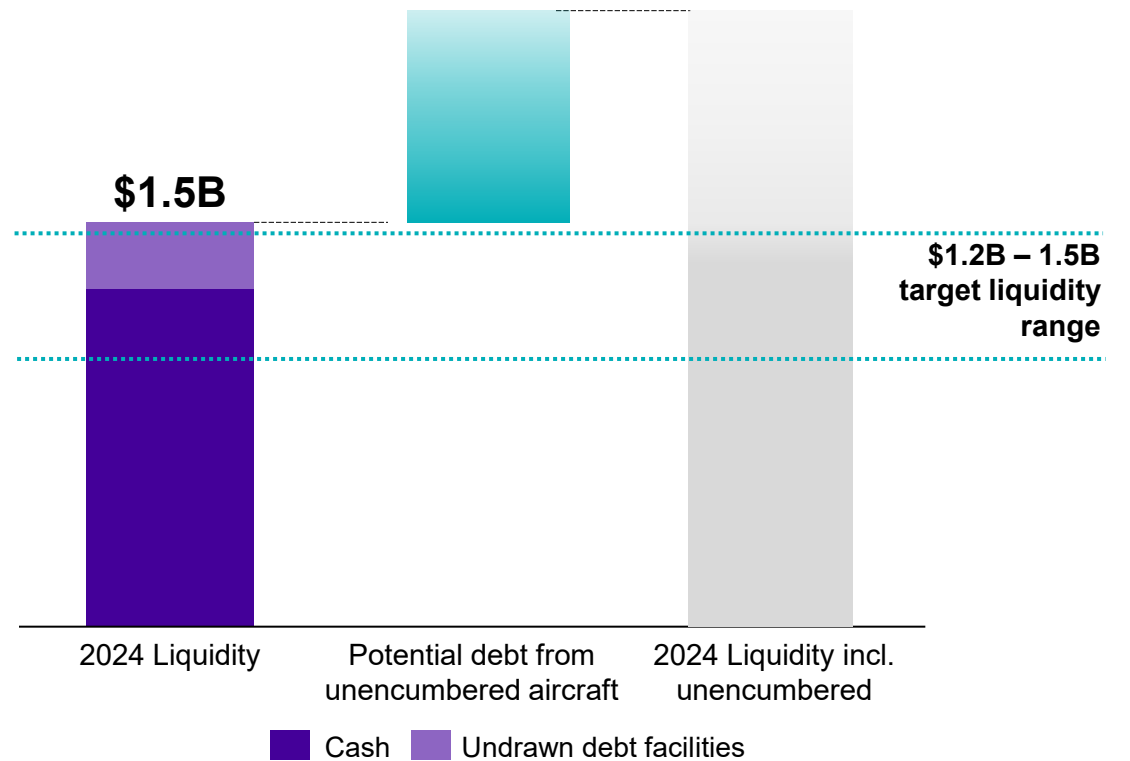

We have built further resilience through a portfolio of high-quality unencumbered fleet

Unencumbered aircraft are now one-third of the owned fleet's market value¹

And can be financed to supplement liquidity as a key risk mitigant

¹ Aircraft values are in USD based on valuations by Aircraft Value Analysis Company Limited ("AVAC") as at 30 June 2024. Converted to NZD at the 2024 balance sheet rate of 0.6080. Excludes spare engine assets.

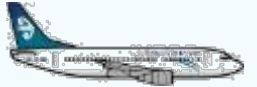

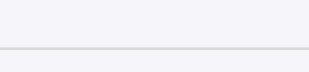

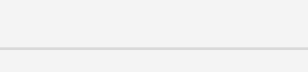

Fleet simplification has delivered cost benefits, and our fleet will remain competitive for the long-term

Fleet has been simplified

Latest-generation technology

Fleet age will float up

	2011 (8 aircraft types) →	Today	2024 (5 aircraft types) →	Early to mid-2030s (4 aircraft types) →
Wide-body	747 			
	767 		787  ● 787-9	787  ● 787-9
	777  ● 777-300ER ● 777-200ER		777  ● 777-300ER	787-9 (10) 
Narrow-body	737 		A320  ● A320	A320  ● A320
	A320 		A321  ● A321	A321  ● A321
Turboprop	ATR72  ● ATR72-500		ATR72  ● ATR72-600	ATR72  ● ATR72-600
	Q300 			
	B1900D 		Q300 	Q300 

The delayed 787 order is our only fleet replacement programme through 2030

Without the substantive replacement burden facing many peers, we are well positioned for free cashflow generation

Illustrative fleet replacement profile

¹ Reflects the current firm 787 order of eight aircraft as disclosed at the 2024 Annual Results on 29 August 2024.

² Refers to estimated replacement timeframe of the 14x 787-9 aircraft which were delivered from 2014 to 2019.

Retaining 777-300s for longer

Provides capital efficient seat growth

Light interior refresh to ensure longer life

Offers resilience against further OEM delays

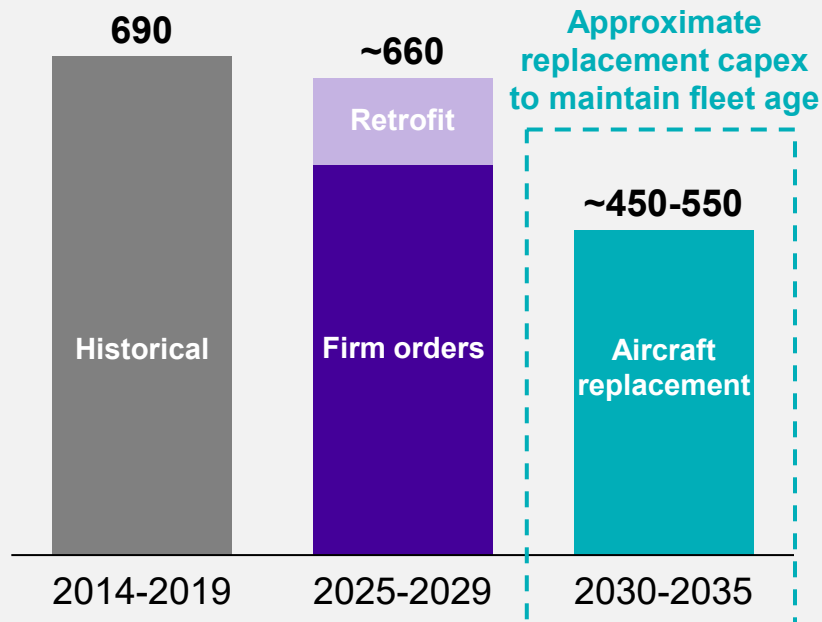

We have flexibility to deliver stronger growth, or adjust to downside risks

Substantial fleet replacement has already occurred – our focus is investing prudently to support future returns

Average annual aircraft capex
(\$ millions)

Average annual non-aircraft capex
(\$ millions)

Note: Aircraft capital expenditure includes aircraft purchase, retrofit and programmes. Excludes capitalised engine overhauls. FX USD 0.60 for 2025 to 2029 as reported in the 2024 Annual Results on 29 August 2024.

Benefits from cost transformation initiatives play a key role in our unit cost target...

Transformation initiatives expected to contribute a cumulative \$300 to \$400 million benefit to EBITDA performance by 2028

...together with fleet, continuous improvement and scale efficiencies to maintain flat nominal CASK by 2028

Cost opportunities come from 4 areas

Fleet

Labour

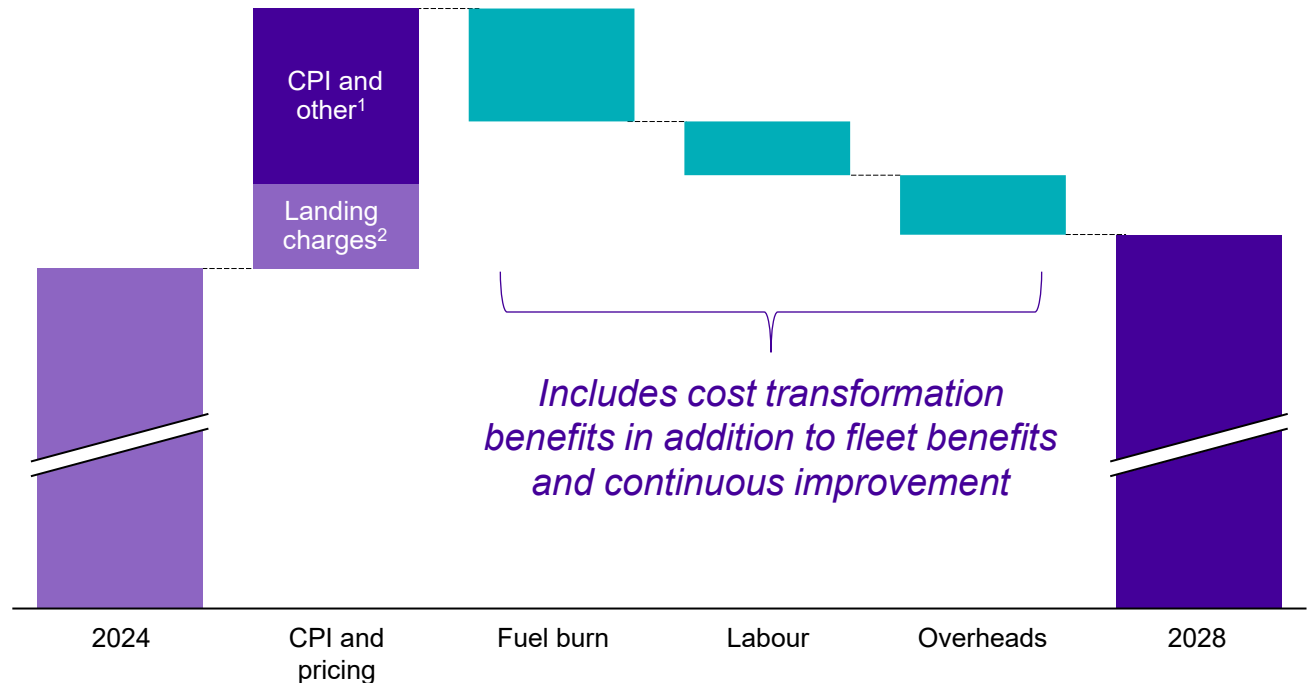

Overheads

Procurement

Targeting flat nominal CASK as our network returns to scale

¹ CPI assumption of 2% to 3% plus other price increases above CPI.

² Represents increase in aeronautical pricing increases from various airports.

We assess the potential opportunities and costs from decarbonising our business in our strategic planning

Sustainable aviation fuel (SAF)

Target of 10% SAF by 2030
World Economic Forum's Clean Skies for Tomorrow

Low emissions aircraft technology

First battery-powered all-electric-demonstrator aircraft arriving in calendar 2025

Operational efficiency

Investing in flight planning tools to reduce fuel burn and modern hybrid-electric ground services equipment

A diversified earnings stream and valuable strategic partnership with Pratt & Whitney

The Christchurch Engine Centre (CEC) will expand into GTF overhauls from 2026

- Full overhaul, test and repair facility
- Expansion enables servicing of PW1100 and PW1500 GTF engines, powering Airbus NEO fleet
- Capital-light growth funded via dividend retention and external financing by the CEC

Expansion will almost double current footprint and enable GTF capabilities

Expanded facility	Existing facility
V2500 plus GTF engines powering Airbus NEO fleet	V2500 engines powering Airbus CEO fleet
> 200 engines annually	~ 100 engines annually

Our medium-term financial ambitions support growth and shareholder returns

Our financial ambitions...

1

\$300 million to \$400 million benefit from transformation contributing to EBITDA by 2028...

2

... targeting operating revenue growth of 4% to 6%, driven by premium mix, ancillary and loyalty...

3

...with cost efficiencies and continuous improvement driving flat nominal unit cost performance as our network scales back

...support strong future shareholder returns

ROIC > pre-tax WACC of ~11%

Ordinary dividend grows with earnings at 40% to 70% payout of NPAT

Buybacks are considered appropriate to return excess capital to shareholders, with consideration of balance sheet strength relative to targets

Key messages you should take away from today

We have a high-performing, engaged team with a customer-centric focus

We will sustain our leading position in New Zealand by leveraging deep competitive strengths

Premiumisation, ancillary and loyalty expansion, alongside disciplined cost control will power future earnings growth

We are unlocking value through digital transformation and our people

Our strong balance sheet provides us with ability to grow and maximise shareholder returns

AIR NEW ZEALAND
