Me Today announces change of balance date to 30 June 2022

Me Today Limited (NZX: MEE) advises that it will change its balance date from 31 March to 30 June each year, to ensure that the annual Manuka honey harvest is completed inside its reporting period.

On 30 June 2021 Me Today Limited announced that it had completed acquisition of all shares in King Honey Limited. The King Honey business has approximately 18,500 Beehives placed across the North Island and Marlborough regions of New Zealand. The 2022 season crop is currently being harvested and processed, and is expected to be finalised in late April. Going forward, the harvest season will better align to the new reporting period from 1 July to 30 June in each year.

With the next balance date change to 30 June 2022 the audited reporting period will be for the fifteen-month period 1 April 2021 to 30 June 2022 (with comparative figures of the 12 month period to 31 March 2021). These audited results will be lodged with NZX before the end of August 2022.

Prior to the end of May 2022, the company will lodge with NZX unaudited condensed financial statements for the 12 months ended 31 March 2022. These financial statements will include nine months trading of the King Honey business and twelve months of the Me Today business, including The Good Brand Company.
