## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 1. MATERIAL ACCOUNTING POLICY INFORMATION

#### Reporting Entity

The consolidated financial statements (hereafter referred to as the 'financial statements') presented for the year ended 31 March 2025 are for Pacific Edge Limited (the 'Company') and its subsidiaries (collectively referred to as the 'Group'). The Group's purpose is to research, develop and commercialise new diagnostic and prognostic tools for the early detection and management of cancers.

Pacific Edge Limited is registered in New Zealand under the Companies Act 1993 and is a Financial Markets Conduct (FMC) reporting entity under Part 7 of the Financial Markets Conduct Act 2013. The financial statements of the Group have been prepared in accordance with the requirements of the Financial Markets Conduct Act 2013 and the NZX Listing Rules. The financial statements presented are those of the Group, consisting of the Parent entity, Pacific Edge Limited and its subsidiaries. The Company is dual listed, with its primary listing of ordinary shares quoted in New Zealand on the NZX Main Board, and a secondary listing in Australia as a Foreign Exempt Entity on the ASX.

These financial statements have been approved for issue by the Board of Directors on the 29th May 2025.

#### Basis of Preparation

These financial statements of the Group have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP). The Group is a Tier 1 for-profit entity for the purposes of complying with NZ GAAP. The financial statements comply with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS), other New Zealand accounting standards and authoritative notices that are applicable to entities that apply NZ IFRS. The financial statements comply with International Financial Reporting Standards Accounting Standards ("IFRS Accounting Standards") as issued by the IASB.

The financial statements are presented in New Zealand Dollars, which is the Company's functional currency and Group's presentation currency, and all values are rounded to the nearest thousand dollars (\$000). The accounting principles recognised as appropriate for the measurement and reporting of earnings, cash flows and financial position on a historical cost basis have been used.

The Consolidated Statement of Comprehensive Income and Consolidated Statement of Cash Flows have been prepared so that all components are stated net of GST. All items in the Consolidated Balance Sheet are stated net of GST, with the exception of receivables and payables

#### Management of Capital

The capital structure of the Group consists of equity raised by the issue of ordinary shares in the Company. The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders, provide benefit for other stakeholders and to maintain an optimal capital structure to support the development of its business. The Company meets these objectives through closely managing revenue and expenditure, and where required issues new shares.

#### Going Concern

The 2025 financial statements have been prepared on a going concern basis which assumes that the Company will have sufficient cash to pay its debts as they fall due for a minimum of 12 months from the date of signing the Financial Statements.

As at 31 March 2025, the Company has \$22.568m of cash, cash equivalents and short-term deposits (2024: \$50.261m) and net assets of \$26.085m (2024: \$54.622m). The Company made a net loss after tax of \$29.936m (2024: loss of \$29.535m). Net cash out flows from operating activities for the 12 month period to 31 March 2025 were \$24.740m (2024: cash outflow \$25.750m).

While the Company continues to incur operating losses, the Company remains solvent and continues to meet its debts as they fall due.

As noted in Note 25 - Subsequent Events, the Company has lost Medicare coverage for Cxbladder tests in the US from 24 April 2025. These tests generated approximately 56% of Operating Revenue in the year ended 31 March 2025. The Company is seeking to regain coverage through the submission of reconsideration requests for Cxbladder Triage (made 21 March 2025), and Cxbladder Monitor (submission for reconsideration made May 2025). Industry experts typically estimate a coverage decision 6-9 months after a submission of a single product with only a small number of new supporting publications.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

While the loss of Medicare coverage is expected to have a significant impact on testing volume, the Company expects to continue to bill and receive reimbursement from contracted commercial US payers without interruption, notably from Kaiser Permanente, the US Veterans Administration, various Blue Cross Blue Shield plans under the group purchasing agreement and from non-contracted private payers in line with historic reimbursement rates. The Company will also increase appeals activity, leveraging the February 2025 inclusion of Cxbladder Triage in the American Urological Association Microhematuria Guideline. Additionally, the Company expects collections from its enhanced patient responsibility and patient assistance programs to continue in line with the rates since the introduction of that program in July 2023.

Offsetting the negative coverage outcome for Medicare, the inclusion of Cxbladder Triage in the February 2025 American Urological Association Microhematuria Guideline (the only biomarker test included with A Grade evidence) is expected to drive demand from clinicians in the US and if coverage is resumed, provide increased volumes and revenue in the United States. Cxbladder Triage Plus, the replacement product for Triage, has also received draft Gapfill pricing of US\$1,018.44 per test. The price for Cxbladder Triage Plus is expected to be made effective on 1 January 2026, and if covered by Medicare, will be a meaningful increase (when compared to the US\$760 Medicare approved price of our existing tests) because it would increase both the gross margin and gross margin percentage per test and improves the profitability of operating our front-line sales force.

The Company has prepared cash flow forecasts which indicate that with the Medicare non-coverage decision, the Company may not have sufficient cash to meet its minimum expenditure commitments and support its current levels of activity.

To address the future additional funding requirements of the Group, there are a number of options available to the Directors, including:

- raising additional capital. On 29 May 2025, the Board approved a capital raise which is being progressed with the intention of raising at least \$20m via a Placement and Share Purchase Plan. Completion of the Placement will be dependent on shareholder approval, with anticipated settlement date no later than 31 August 2025; and
- continuing to monitor the Company's ongoing working capital requirements and minimum expenditure commitments, including identifying cost management options to maintain a level of expenditure that is in line with the Company's available cash resources.

While the Company is confident about revenue opportunities in the US market and obtaining additional funds via an equity raise, the Directors acknowledge that there are a number of material uncertainties set out above related to unknown future events that are not fully in their control. These material uncertainties are related to events and conditions that may cast significant doubt on the Company's ability to continue as a going concern and therefore it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The financial statements do not include any adjustments that may be required if the Group was unable to continue as a going concern.

### Basis of Consolidation

The following entities and the basis of their inclusion for consolidation in these Financial Statements are as follows:

| Name of Subsidiary                             | Place of Incorporation (or registration) & Operation | Principal Activity  | Ownership Interests & Voting Rights |                 |
|--|--|---|-------------------------------------|-----------------|
|  |  |   | 31 March 2025 %                     | 31 March 2024 % |
| Pacific Edge Diagnostics New Zealand Limited   | New Zealand  | Commercial Sales and Diagnostic Laboratory Operation  | 100                                 | 100             |
| Pacific Edge (Australia) Pty Limited           | Australia  | Commercial Sales and Biotechnology Research & Development   | 100                                 | 100             |
| Pacific Edge Diagnostics USA Limited           | USA  | Commercial Sales and Diagnostic Laboratory Operation  | 100                                 | 100             |
| Pacific Edge Diagnostics Singapore Pte Limited | Singapore  | Commercial Sales and Biotechnology Research & Development. Dissolved and stuck off 20 February 2025 | 0                                   | 100             |
| Pacific Edge Analytical Services Limited       | New Zealand  | Dormant Company   | 100                                 | 100             |

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

The financial statements incorporate the assets, liabilities and results of all subsidiaries of Pacific Edge Limited as at 31 March 2025 and for the year then ended. All subsidiaries have the same balance date as the Company of 31 March.

Pacific Edge Limited consolidates all entities over which Pacific Edge Limited has control. Control is achieved when the Group:

- has power to direct the activities of the entity;
- is exposed, or has rights, to variable returns from involvement with the entity; and
- has the ability to use its power to affect its returns.

Subsidiaries which form part of the Group are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred and the equity interest issued by the Group.

The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

### Critical Accounting Estimates and Assumptions

In preparing these financial statements, the Group made estimates and assumptions concerning the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are continually evaluated and are based on historical experience and other factors including expectations or future events that are believed to be reasonable under the circumstances.

The Group has performed an assessment of potential climate related risks and considered the location of laboratories and other key operations in each region that it operates in and concluded that there is no material impact on the current financial statements.

All other material accounting policy information has been applied on a basis consistent with those used in the audited financial statements of Pacific Edge Limited for the year ended 31 March 2025.

## 2. NEW STANDARDS

### NEW DISCLOSURE REQUIREMENTS AND CHANGES IN ACCOUNTING STANDARDS ADOPTED BY THE GROUP

#### *Disclosure of Fees for Audit Firms' Services (Amendments to FRS-44)*

The amendments to FRS-44 aim to address concerns about the quality and consistency of disclosures an entity provides about fees paid to its audit firm for different type of services.

Application of this amendment is required for accounting periods beginning on or after 1 January 2024. The Group has adopted these amendments to FRS-44 in the 2025 financial statements.

The IFRIC have released an agenda decision on Segment Reporting providing details on how an entity applies the requirements in paragraph 23 of IFRS Operating Segments. The agenda decision does not have a material impact in the 2025 financial statements.

There are no other NZ IFRS or NZ IFRIC interpretations that are effective that would be expected to have a material impact on the Group.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED BY THE GROUP

The following new accounting standards and interpretations have been published that are not mandatory for 31 March 2025 reporting periods and have not been early adopted by the Group.

#### **NZ IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18)**

NZ IFRS 18 Presentation and Disclosure in Financial Statements (IFRS 18) was issued in May 2024 as replacement for IAS 1 Presentation of Financial Statements (IAS 1). Most of the presentation and disclosure requirements would largely remain unchanged together with other disclosures carried forward from IAS 1 IFRS 18 primarily introduces the following:

- a defined structure for the consolidated statement of comprehensive income by classifying items into one of the five categories: operating, investing, financing, income taxes and discontinued operations. Entities will also present expenses in the operating category by nature, function, or a mix of both, based on facts and circumstances;
- disclosure of management-defined performance measures non-GAAP measures in a single note together with reconciliation requirements, and
- additional guidance on aggregation and disaggregation principles (applied to all primary financial statements and notes).

IFRS 18 also made limited change to certain presentation and disclosure requirements in the financial statements; as well as consequential changes to various IFRS Accounting Standards.

IFRS 18 will be effective for annual reporting periods beginning on or after 1 January 2027 and entities could early adopt this accounting standard. The Group expects to adopt IFRS 18 and relevant consequential changes of other accounting standards in the 2028 financial statements. The Group is currently assessing the impact and will disclose more detailed assessments in the future.

### 3. EARNINGS PER SHARE

#### (a) Basic

Basic earnings per share is calculated by dividing the profit (or loss) attributable to equity holders of the Company by the weighted average number of ordinary shares on issue during the year excluding ordinary shares purchased by the Company (Note 18).

|   |         | GROUP    |          |
|---|---------|----------|----------|
|   |         | 2025     | 2024     |
| Loss attributable to equity holders of the Company  | (\$000) | (29,936) | (29,535) |
| Weighted average number of ordinary shares on issue | (000)   | 811,736  | 810,727  |
| Earnings per share                                  | (\$)    | (0.037)  | (0.036)  |

#### (b) Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of shares outstanding to assume conversion of all dilutive potential ordinary shares. The Group's dilutive potential ordinary shares are in the form of share options. As the Group made a loss during the current year and losses cannot be diluted, basic and diluted earnings per share are the same.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 4. LABORATORY THROUGHPUT AND COMMERCIAL TESTS - NON-GAAP REPORTING

**Laboratory Throughput is a key metric for the Group:** Laboratory Throughput provides evidence of the usage of Cxbladder products globally and the rates of adoption between different customer segments. The inclusion of this non-GAAP reporting is considered helpful to readers of these financial statements, as it allows readers to compare the current period to prior periods and assess usage trends on a consistent basis. Total laboratory throughput includes commercial tests, which are invoiced to customers (including tests for patients covered by the US government's medical program through the Centers for Medicare and Medicaid Services (CMS)), and tests which are not considered to be commercial as these tests relate to Research Tests or other non-chargeable activities.

**Commercial Test numbers are also a key metric for the Group:** Commercial Tests are those tests for which the Company is actively seeking reimbursement and cash receipts, and tests performed at no charge in order to gain new customers. The inclusion of this non-GAAP reporting is considered helpful to readers of these financial statements as it allows readers to compare the current period to prior periods and assess trends on a consistent basis.

Laboratory Throughput and Commercial Tests per financial year are shown below.

|   | FY25    | FY24   |
|---|---------|--------|
| Total Laboratory Throughput (tests)                                 | 28,894  | 32,633 |
| Increase (Decrease) in Total Laboratory Throughput (%)              | (11%)   | 3%     |
| Increase (Decrease) in Throughput from previous year (tests)        | (3,739) | 1,068  |
| Total Commercial Tests (tests)                                      | 24,642  | 27,347 |
| Increase (Decrease) in Commercial Tests from previous year (%)      | (10%)   | 2%     |
| Increase (Decrease) in Commercial Tests from previous year (tests)  | (2,705) | 656    |
| Commercial Tests as a percentage of Total Laboratory Throughput (%) | 85%     | 84%    |

### 5. REVENUE

#### Background information on US customers and the payment process

A physician orders a Cxbladder test when a patient presents to their clinic with symptoms that indicate the possibility of bladder cancer. The most common and significant symptom is haematuria or blood in their urine. A urine sample is collected from the patient and sent in the Cxbladder Urine Sampling System to the Group's laboratory in the US or in New Zealand. The Group receives and processes the urine sample and returns the results of the test back to the ordering physician. The individual patient is the Group's customer, however typically in the US market, the patient's insurer may pay the Group for some or all of the cost of the test.

When a physician orders a Cxbladder test, the Group has an obligation to perform the test and report the results to the ordering physician irrespective of the patient's insurance contract. A patient may have private insurance cover, be covered by the US government's medical program through CMS, self cover or have no insurance cover.

Once the Cxbladder test has been completed, all information required for insurance purposes is sent to the Group's billing and reimbursement agent to begin the process to collect reimbursement from any applicable insurance companies for the Cxbladder test performed.

For patients with private insurance cover, the relevant patient and test order information will be sent to their insurance provider. When the Group does not have an individual agreement with that insurance provider to pay for Cxbladder tests ("out of network"), the insurance provider will assess that individual patient's test for medical necessity and the level of insurance cover (if any) available to cover the cost of the test. This process of assessment can take many months to work through before the Group receives payments (if any) from the insurance company. The Group does have agreements with some insurance providers but these currently cover a small proportion of the Group's customers.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

For patients covered by CMS, invoices are sent to CMS. Prior to 3 July 2020, Pacific Edge was not included in the Local Coverage Determination (LCD) and as a result, did not normally receive any amounts for tests performed for patients covered by CMS. On 3 July 2020, Pacific Edge received notice of inclusion in the LCD, resulting in the Company receiving reimbursement for Cxbladder Monitor and Detect tests performed after 1 July 2020 for patients covered by the CMS across the US that are deemed medically necessary.

For uninsured patients, the Group has no certainty of when or if the patient will pay.

Refer to note 25 - Subsequent Events for details on the Local Coverage Determination change that has the potential to negatively impact future revenue.

### Rest of World Customers

Revenue from Rest of World customers is primarily from Te Whatu Ora Health New Zealand. In all Rest Of World locations, there is a clearly defined contract with the customer meeting the requirements of NZ IFRS 15. Pacific Edge Diagnostics New Zealand Limited has individual contracts with regions across New Zealand and revenue is recognised as described on the following pages.

### Critical Accounting Estimate

The application of NZ IFRS 15: Revenue from contracts with customers (NZ IFRS 15) requires the application of significant judgement in determining whether the Group meets the five key criteria identified in NZ IFRS 15, which allows revenue to be recognised as performance obligations are satisfied. For the Group this would result in some revenue recognised in advance of the receipt of cash.

The significant judgements adopted by the Group relate to :

- determining if a contract with the customer exists;
- identifying the rights of each party;
- identifying the payment terms;
- ensuring the contract has commercial substance; and
- determining whether it is probable that the Group will collect the consideration to which it is entitled.

While there has been significant judgement applied to all five criteria, there are two criteria that have higher levels of uncertainty, requiring increased levels of judgement. The significant judgements applied to determine the Transaction Price and determining the probability of collecting consideration are detailed in the Accounting Policy relating to Revenue from Cxbladder Tests.

### ACCOUNTING POLICY

#### Revenue from Cxbladder tests - USA

The Group performs Cxbladder tests when requested by a patient's physician. At the point the test results are returned to the physician, the Group has satisfied its performance obligation and has the right to issue an invoice. Revenue can be recognised at this point in time. On return of the test result, the Group has determined a contract exists, that the payment terms are identified, that the contract has commercial substance and there has been identification of the rights of each party.

On the 3 July 2020, Pacific Edge received notice of inclusion in the LCD, resulting in the Company receiving reimbursement for Cxbladder Monitor and Detect tests performed after 1 July 2020 for patients covered by the CMS across the US that are deemed medically necessary. Reimbursement for these tests is at the already determined national CMS price for Cxbladder of US\$760 per test, less a 2% sequestration fee.

Since Cxbladder's inclusion in the LCD, based on historical data, the Group has been able to reliably estimate both the probability and size of payment received from the CMS. The inclusion within the LCD combined with the growing support for the use of Cxbladder within the US has also allowed the Group to reliably estimate both the probability and size of payment received from customers covered by Medicare Advantage policies provided by private insurers and customers covered by Kaiser Permanente.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

Tests performed for patients covered by other private policies, or tests performed for those with no insurance cover continue to be recognised as revenue when cash is collected and the Group has satisfied its performance obligations and that the contract is considered terminated and the amount received is non-refundable. Revenue is recognised on a cash basis if due to not being able to reliably estimate both probability and size of payment received. Management continually re-assess its probability to collect payments to be able to account for the transaction under NZ IFRS 15.

The Group have concluded that the contracts with the CMS and customers covered by Medicare Advantage and Kaiser Permanente include variable consideration because the amounts paid by Medicare, Kaiser Permanente or the commercial health insurance carriers that provide Medicare Advantage may be paid at less than our standard rates or not paid at all, with such differences considered implicit price concessions. Variable consideration attributable to these price concessions is measured at the expected value, and are determined by historical average collection rates by test type and payor category taking into consideration the range of possible outcomes and predictive value of our past experiences. Such variable consideration is included in the transaction price only to the extent it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

As a result of the Significant Judgements applied, the Group have determined the criteria under NZ IFRS 15 which allows revenue to be recognised in advance of the receipt of cash have been met, and the Group has recognised revenue for tests which were performed from 1 October 2024 to 31 March 2025 (6 months prior to balance date) for which payment has not been received by 31 March 2025 from CMS and Medicare Advantage. Following a change in commercial agreement, revenue for Kaiser Permanente is recognised in the month the test is performed.

### Rest of World revenue recognition from tests performed

There has been no change in accounting policy or estimates for Operating Revenue for the Rest of World. The Group performs Cxbladder tests when requested by a patient's physician in New Zealand, Australia and Southeast Asia. At the point the test results are returned to the physician, the Group has satisfied its performance obligation. At the end of the month an invoice is issued to the customer based on the number of tests performed. Revenue is recognised when the invoice is issued.

### OTHER INCOME

#### Grant Income

Government Grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received. Government Grants are recognised in Other Income in the consolidated Statement of Comprehensive Income, on a systematic basis over the periods in which the Group recognises the related costs as expenses for which the grants are intended to compensate.

The Company receives grants from Callaghan Innovation for postgraduate internships and summer students.

All conditions of the grants have been complied with.

### Research Rebates and Tax Incentives

#### - New Zealand R&D Tax Incentive (RDTI)

The New Zealand RDTI is a 15% tax credit on the money invested in eligible research and development (R&D) that has occurred in New Zealand. As the New Zealand companies are in a tax loss position, the Group is eligible for the Tax Incentive to be refunded.

The RDTI is recognised at its fair value where there is a reasonable assurance that the credit will be received and the Group will comply with all attached conditions.

All conditions of the New Zealand RDTI have been complied with. Payment will be received after submission of each annual research and development tax claim.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### - Australia Cxbladder Research Rebate

A Cxbladder research programme is administered by Pacific Edge (Australia) Pty Limited and tax rebates are received as a result of this programme.

The Cxbladder research rebate is recognised at its fair value where there is a reasonable assurance that the rebate will be received and the Group will comply with all attached conditions.

For the year ended 31 March 2025, Group revenue is over \$20m Australian Dollars, resulting in research rebates being issued as a tax credit. The Tax Credit is not recognised as a tax asset in the financial statements for the year ended 31 March 2025.

## 6. RESEARCH AND DEVELOPMENT COSTS

### ACCOUNTING POLICY

Research is the original and planned investigation undertaken with the prospect of gaining new scientific knowledge and understanding. This includes: direct and overhead expenses for diagnostic and prognostic biomarker discovery and research; pre-clinical trials; and costs associated with clinical trial activities. All research costs are expensed when incurred.

Development is the application of research findings to a plan or design for the production of new or substantially improved processes or products prior to the commencement of commercial production.

When a project reaches the stage where it is probable that future expenditure can be recovered through the process or products produced, expenditure that is directly attributed or reasonably allocated to that project is recognised as a development asset within intangible assets. If the expenditure also benefits processes or products for which it cannot be recovered, it will be expensed. The asset will be amortised from the date of commencement of commercial production of the product to which it relates on a straight-line basis over the period of expected benefit. Development assets are reviewed annually for any impairment in their carrying value.

#### Employee Share Scheme

The Company has an Employee Share Scheme where ordinary shares in the Company may be issued to selected employees to recognise performance or a significant contribution to the Company. These shares may be issued in lieu of a cash bonus or in addition to the employee's remuneration. The ordinary shares are issued directly to the employee and the Company accounts for the cost of the shares. The shares are allocated to the employee on the date that the Board approves the issue of the share capital. All employees who hold ordinary shares in the Company must comply with the Company's Share Trading Policy.

The issuance of ordinary shares to employees is treated as equity settled share-based payments. Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date based on the market price at the time of issuance. The fair value of shares granted is recognised as an employee expense in the Consolidated Statement of Comprehensive Income when the shares are issued. During the 2025 financial year, 644,630 (2024: 906,000) ordinary shares were issued to employees as part of the Employee Share Scheme. The associated non-cash cost of these shares was \$58,000 (2024: \$83,000). Refer to Note 18 for further details on the shares issued during the financial year.

#### Attract and Retain Options

The Board believes that the issue of share options provides an appropriate incentive for participating employees to grow the total shareholder return of the Company.

Attract and retain options are issued to selected employees as a long-term component of remuneration in accordance with the Group's remuneration policy. Incentive Options entitle the holder, on payment of the exercise price, to one ordinary share of the Company.

The exercise price of the granted options is determined using the fair value of the Company's share price at the time of the options being granted.

Incentive Options issued prior to 31 March 2022 generally vest over three years and contain the requirement to remain as an employee of the Company in order for the options to vest. Tranches of options are exercisable over four to ten years from the relevant vesting date. No options can be exercised later than the tenth anniversary of the final vesting date.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

Options issued after 1 April 2022 to 31 March 2024 generally vest equally in three tranches over a four year period, with 1/3 on the second, third and fourth anniversary of the issue. The Options are exercisable up to four years after vesting date. Option holders are required to remain as an employee of the Company in order for options to vest. No options can be exercised later than the fourth anniversary of the final vesting date. The exercise price increases annually for each vested tranche at the equity cost of capital.

Options issued after 1 April 2024 generally vest equally in three tranches over a three year period, with 1/3 on the first, second and third anniversary of the issue. The Options are exercisable up to four years after vesting date. Option holders are required to remain as an employee of the Company in order for options to vest. No options can be exercised later than the fourth anniversary of the final vesting date. The exercise price increases annually for each vested tranche at the equity cost of capital.

### ACCOUNTING POLICY

All options are accounted for as equity settled share based payments as the Group has no legal or constructive obligation to repurchase or settle in cash. The fair value of all options granted is recognised as an expense in the Consolidated Statement of Comprehensive Income over their vesting period, with a corresponding increase in the employee share option reserve. The options expense for the year ended 31 March 2025 was \$1,316,819 (2024: \$1,189,000).

The fair value is determined at the grant date of the options and expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revisits its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the Consolidated Statement of Comprehensive Income such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share based payments reserve.

During the financial year ended 31 March 2025, there were no share options exercised (2024: Nil). There was no resulting increase in share capital (2024: \$Nil).

Movements in the number of options outstanding and their related weighted average exercise prices are as follows:

|                                | GROUP                                    |                   |  |                   |

| Exercisable at 31 March        | 0.52                                     | 14,435,570        | 0.44                                     | 12,635,479        |

The Group used the Black-Scholes valuation model to determine the fair value of the equity instruments granted. The Black-Scholes valuation model has been determined as the most appropriate method as it estimates the theoretical value of options taking into account the impact of time and other risk factors. The significant inputs into the Black-Scholes valuation model were the market share price at grant date, the exercise price shown below, the expected annualised volatility of 50-106%, a dividend yield of 0%, an expected option life of between one and ten years and an annual risk-free interest rate of between 0.65% and 5.63%.

The volatility measured is the standard deviation of continuously compounded share returns and is based on a statistical analysis of daily share prices in the past one to ten years.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

Share options outstanding at the end of the reporting periods have the following expiry dates, vesting dates, exercise prices and movements for the year ended 31 March 2025:

| Issued                 | Expiry                  | Low Exercise Price (\$) | High Exercise Price (\$) | Weighted Average Exercise Price (\$) | Opening Options as at 1 April 2024 | Issued           | Forfeited        | Exercised | Expired         | Closing Options 31 March 2025 | Exercisable as at 31 March 2025 |

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 9. CASH, CASH EQUIVALENTS AND SHORT TERM DEPOSITS

#### ACCOUNTING POLICY

Cash and cash equivalents includes cash in hand and deposits held on call with banks, and bank overdrafts. Term deposits are also presented as cash equivalents if they have a maturity of three months or less from acquisition date.

Short Term Deposits and Cash Equivalents include investments with ANZ, BNZ, Kiwibank, Westpac and Wells Fargo (2024: ANZ, BNZ, Kiwibank and Westpac and Wells Fargo), with periods ranging up to 365 days. Funds held on term deposit with ANZ, BNZ Westpac and Kiwibank can be accessed with one month's notice at the request of the authorised bank signatories of Pacific Edge Limited, but may incur fees and/or charges for early access.

#### INTEREST INCOME

#### ACCOUNTING POLICY

Interest income is recognised using the effective interest method.

Interest on the bank balances ranges from 0% to 5.70% (2024: 0% to 6.49%) per annum.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 10. RECEIVABLES

#### ACCOUNTING POLICY

Receivables are initially measured at fair value and subsequently measured at amortised cost using the effective interest rate method, less any provision for impairment. An allowance for impairment is made up of expected credit losses based on the assessment of the trade receivables debt at the individual level for impairment, plus an additional allowance on the remaining balance for potential credit losses not yet identified.

|                          | GROUP            |                  |
|--------------------------|------------------|------------------|
|                          | 2025<br>(\$'000) | 2024<br>(\$'000) |
| Trade Receivables        | 2,825            | 2,551            |
| Sundry Debtors           | 1,903            | 1,722            |
| Accrued Interest         | 178              | 375              |

| <b>Total Receivables</b> | <b>4,970</b>     | <b>4,698</b>     |

There is no provision for impairment relating to the revenue from Cxbladder sales in New Zealand. All outstanding sales are current and there are no expected credit losses on the amounts outstanding at balance date.

US Trade Receivables includes a provision for future refunds of \$263,000 (2024: \$83,000).

Sundry Debtors include accruals for grants and rebates that have not yet been paid. These are expected to be paid once the relevant claims have been submitted. The Company has met all conditions of the claims and there is no indication that there is impairment of these balances.

Included in trade receivables are the below amounts which were past due but not impaired. These relate to a number of customers for whom there is no history of default.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 11. INVENTORY

#### ACCOUNTING POLICY

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average formula.

|                        | GROUP           |                 |
|------------------------|-----------------|-----------------|
|                        | 2025<br>(\$000) | 2024<br>(\$000) |
| Laboratory Supplies    | 1,607           | 1,688           |
| <b>Total Inventory</b> | <b>1,607</b>    | <b>1,688</b>    |

The major items of Inventory are laboratory reagents, chemicals and Cxbladder urine sampling systems.

Laboratory supplies used during the year of \$2,672,000 (2024: \$2,769,000) are included within the Consolidated Statement of Comprehensive Income in Laboratory Operations and Research.

### 12. OTHER ASSETS

|                           | GROUP           |                 |
|---------------------------|-----------------|-----------------|
|                           | 2025<br>(\$000) | 2024<br>(\$000) |
| Prepayments               | 1,239           | 979             |
| Security Deposits         | 440             | 249             |
| <b>Total Other Assets</b> | <b>1,679</b>    | <b>1,228</b>    |

Prepayments are largely made up of insurance, industry conferences and subscriptions. Security deposits are paid to secure properties for lease in the US and to secure credit cards in the US.

### 13. PROPERTY, PLANT AND EQUIPMENT

#### ACCOUNTING POLICY

Property, Plant and Equipment are those assets held by the Group for the purpose of carrying on its business activities on an ongoing basis. All Property, Plant and Equipment is stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. The cost of purchased assets includes the original purchase consideration given to acquire the assets, and the value of other directly attributable costs that have been incurred in bringing the assets to the location and condition necessary for their intended service. This includes the laboratory equipment for the establishment of the laboratories.

Gains and losses on disposals are determined by comparing the net proceeds with the carrying amount and are recognised within the Consolidated Statement of Comprehensive Income when they occur.

#### Depreciation

Depreciation of plant and equipment is based on writing off the assets over their useful lives, using the straight line (SL) and diminishing value (DV) basis.

Main rates used are:

|                                |           |    |
|--------------------------------|-----------|----|
| Plant and Laboratory Equipment | 5% to 40% | DV |
| Computer Equipment             | 5% to 67% | DV |
| Leasehold Improvements         | 6% to 10% | SL |
| Furniture and Fittings         | 5% to 25% | DV |

The assets' useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 14. INTANGIBLE ASSETS

#### ACCOUNTING POLICY

##### Intellectual Property

The costs of acquired Intellectual Property are recognised at cost. All Intellectual Property has a finite life. The carrying value of Intellectual Property is reviewed for impairment, where indicators of impairment exist. Amortisation is charged on a diminishing value basis over the estimated useful life of the intangible assets (1-20 years). The estimated useful life and amortisation method is reviewed at the end of each reporting period.

The following costs associated with Intellectual Property are expensed as incurred during the research phases of a project and are only capitalised when incurred as part of the development phase of a process or product within development assets: Internal Intellectual Property costs including the costs of patents and patent application.

##### Software Development Costs

Costs associated with the development of software are held at cost. Amortisation is charged on a diminishing value basis over the estimated useful life of the intangible assets (2-10 years). The estimated useful life and amortisation method is reviewed at the end of each reporting period.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 15. SEGMENT INFORMATION

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer who makes strategic decisions.

There are two operating segments at balance date:

1. Commercial: The sales, marketing, laboratory and support operations to run the commercial businesses worldwide.
2. Research: The research and development of diagnostic and prognostic products for human cancer.

The reportable operating segment Commercial derives its revenue primarily from sales of Cxbladder tests and the reportable operating segment Research derives its revenue primarily from grant income. The Chief Executive Officer assesses the performance of the operating segments based on their net loss for the period.

Segment income, expenses and profitability are presented on a gross basis excluding inter-segment eliminations to best represent the performance of each segment operating as independent business units. The segment information provided to the Chief Executive Officer for the reportable segment described above, for the year ended 31 March 2025, is shown below.

| 2025   | Commercial<br>(\$000) | Research<br>(\$000) | Less:<br>Eliminations<br>(\$000) | Total External<br>Income<br>(\$000) |
|--|-----------------------|---------------------|----------------------------------|-------------------------------------|
| <b>Income</b>                                |                       |                     |                                  |                                     |
| Operating Revenue - External                 | 21,852                | -                   | (6)                              | 21,846                              |

### Eliminations

These are the intercompany transactions between the subsidiaries and the Parent. These are eliminated on consolidation of Group results. The Research segment of the business utilise consumables and other components that are purchased by the Commercial segments of the business, with the costs of these components allocated to Research segment, and the Commercial segment recognising revenue from the sale.

### Segment Assets and Liabilities Information

| 2025              | Commercial<br>(\$000) | Research<br>(\$000) | Total<br>(\$000) |
|-------------------|-----------------------|---------------------|------------------|
| Total Assets      | 11,257                | 25,773              | 37,030           |
| Total Liabilities | 6,449                 | 4,496               | 10,945           |

| 2024              | Commercial<br>(\$000) | Research<br>(\$000) | Total<br>(\$000) |
|-------------------|-----------------------|---------------------|------------------|
| Total Assets      | 11,443                | 54,005              | 65,448           |
| Total Liabilities | 6,871                 | 3,955               | 10,826           |

### Additions to Non Current Assets for the period include:

|  | Commercial<br>(\$000) | Research<br>(\$000) | Total<br>(\$000) |
|--|-----------------------|---------------------|------------------|
| Property, Plant and Equipment                | 863                   | 4                   | 867              |
| Right of Use Assets                          | -                     | -                   | -                |
| Intangible Assets                            | 406                   | -                   | 406              |
| <b>Total Additions to Non Current Assets</b> | <b>1,269</b>          | <b>4</b>            | <b>1,273</b>     |

The amounts provided to the Chief Executive Officer with respect to total assets and total liabilities are measured in a manner consistent with that of the financial statements. These assets and liabilities are allocated based on the operation of the segment and the physical location of the asset.

There are no unallocated assets or liabilities.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### Geographic Split of Revenue and Non-Current Assets

The Group generates most of the operating revenue from Commercial tests from the US and New Zealand and also receives Grant revenue from New Zealand. Rest of World consists of Revenue from Australia and Southeast Asia.

|  | 2025<br>(\$000) | 2024<br>(\$000) |
|--|-----------------|-----------------|
| <b>Operating and Grant Revenue</b>       |                 |                 |

| <b>Total Non-Current Assets</b> | <b>6,206</b>    | <b>7,573</b>    |

## 16. INCOME TAX

### ACCOUNTING POLICY

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Consolidated Statement of Comprehensive Income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements in accordance with NZ IAS 12. Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The Company and Group has incurred an operating loss for the 2025 financial year and no income tax is payable.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

| <b>Income tax expense reported in the Consolidated Statement of Comprehensive Income</b>      | -                | -                |

### Tax Losses

The Group has losses to carry forward of approximately \$169,288,000 (2024: \$144,471,000) with a potential tax benefit of \$37,174,000 (2024: \$31,554,000). The tax losses are split between the following jurisdictions:

|               | Tax Losses<br>(\$'000) | Tax Effect<br>(\$'000) | Rate |
|---------------|------------------------|------------------------|------|
| New Zealand   | 8,644                  | 2,420                  | 28%  |
| Australia     | 11,320                 | 3,396                  | 30%  |
| United States | 149,324                | 31,358                 | 21%  |

Tax losses are available to be carried forward and offset against future taxable income subject to the various conditions required by income tax legislation being complied with.

### Deferred Research and Development Tax Expenditure:

The Group also has deferred research and development tax expenditure of \$67,113,000 (2024: \$58,880,000) to carry forward and claim for income tax purposes in New Zealand in the future. This has a tax effect of \$18,792,000 (2024: \$16,486,000). The deferred research and development tax expenditure can either be carried forward and offset against future income arising from the research and development, or subject to meeting the shareholder continuity requirements can be offset against future other taxable income.

### Deferred Tax Assets:

The Group does not recognise a deferred tax asset in the Consolidated Balance Sheet.

### Imputation Credit Account

The Group has imputation credits of Nil (2024: Nil).

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 17. PAYABLES AND ACCRUALS

#### ACCOUNTING POLICY

##### Trade and Other Payables Due Within One Year

Trade payables are recognised at the value of the invoice received from a supplier. The carrying value of trade payables is considered to approximate fair value as amounts are unsecured and are usually paid by the 30th of the month following recognition.

|                                     | GROUP           |                 |
|-------------------------------------|-----------------|-----------------|
|                                     | 2025<br>(\$000) | 2024<br>(\$000) |
| Trade Creditors                     | 2,639           | 2,153           |
| Accrued Expenses                    | 1,265           | 711             |
| Employee Entitlements (refer below) | 4,140           | 3,889           |
| <b>Total Payables and Accruals</b>  | <b>8,044</b>    | <b>6,753</b>    |

Payables and accruals are non-interest bearing and are normally settled on 30 day terms, therefore their carrying value approximates their fair value.

The foreign currency split for Payables and Accruals is:

|     | GROUP           |                 |
|-----|-----------------|-----------------|
|     | 2025<br>(\$000) | 2024<br>(\$000) |
| NZD | 2,218           | 2,122           |
| AUD | 1,043           | 202             |
| USD | 4,722           | 4,423           |
| SGD | -               | 6               |

|     | <b>8,044</b>    | <b>6,753</b>    |

##### Employee Entitlements

Employee entitlements are measured at values based on accrued entitlements at current rates of pay. These include salaries and wages accrued up to balance date and annual leave earned to, but not yet taken at balance date.

|                                    | GROUP           |                 |

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 18. SHARE CAPITAL

#### ACCOUNTING POLICY

Ordinary shares are described as equity.

Issue expenses, including commission paid, relating to the issue of ordinary share capital, have been written off against the issued share price received and recorded in the Consolidated Statement of Changes in Equity.

Equity-settled share-based payments to employees and others providing services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share based transactions are set out in Note 8.

|                            | GROUP           |                 |
|----------------------------|-----------------|-----------------|
|                            | 2025<br>(\$000) | 2024<br>(\$000) |
| Ordinary Shares Authorised | 294,458         | 294,400         |
| <b>Total Share Capital</b> | <b>294,458</b>  | <b>294,400</b>  |

All fully paid shares in the Group are Authorised and have equal voting rights and equal rights to dividends. All Ordinary Shares are fully paid and have no par value.

#### Share Capital Group

1) During the period 644,630 shares were issued as part of employees remuneration in lieu of cash payments at an average price of \$0.090 per share. (2024: 906,126 at \$0.091).

There are 811,915,974 (March 2024: 811,271,344) ordinary shares on issue.

All fully paid shares in the Company have equal voting rights and equal rights to dividends. All Ordinary Shares are fully paid and have no par value.

### 19. FOREIGN CURRENCY

#### ACCOUNTING POLICIES

##### Foreign Currency Transactions

The individual financial statements of the Group are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the Group financial statements, the results and financial position of the Group entity are expressed in New Zealand dollars ('NZ\$'), which is the functional currency of the Parent and the presentation currency for the Group financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non monetary items denominated in foreign currencies are translated at the rates prevailing on the date the transaction occurs.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

Exchange differences are recognised in the Consolidated Statement of Comprehensive Income in the period in which they arise.

### Foreign Operations

For the purpose of presenting the Group financial statements, the assets and liabilities of the Group's foreign operations are expressed in New Zealand dollars using exchange rates prevailing at the end of the reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated as a separate component of equity in the Group's foreign currency translation reserve. Such exchange differences are reclassified from equity to profit or loss (as a reclassification adjustment) in the period in which the foreign operation is disposed of.

### Foreign Currency Translation Reserve

Exchange differences relating to the translation from the functional currencies of the Group's foreign subsidiaries into New Zealand dollars are brought to account by entries made directly to the Foreign Currency Translation Reserve.

## 20. RECONCILIATION OF CASH FLOWS TO OPERATING ACTIVITIES WITH OPERATING NET LOSS

|  | GROUP           |                 |

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 21. FINANCIAL INSTRUMENTS

#### ACCOUNTING POLICY

##### Foreign Currency Transactions

Financial instruments include cash and cash equivalents, short term deposits, receivables, security deposits, finance lease liabilities and trade creditors. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

##### Managing Financial Risk

The Group's activities expose it to the financial risks of changes in interest rate risk, credit risk, liquidity risk and foreign currency risk. Management is of the opinion that the Company and the Group's exposure to market risk during the period and at balance date is defined as:

| Risk Factor             | Description  |
|-------------------------|--|
| (i) Currency Risk       | Financial assets and financial liabilities are denominated in NZD, USD, AUD, SGD, CAD and EUR currencies |
| (ii) Interest Rate Risk | Exposure to changes in Bank interest rates resulting in cash flow interest rate risk                     |
| (iii) Credit Risk       | Risk of financial loss if counterparty fails to meet contractual obligations                             |
| (iv) Liquidity Risk     | Risk the Group may not be able to meet its commitments as they fall due                                  |
| (v) Other Price Risk    | Not applicable as no securities are bought, sold or traded   |

##### (i) Foreign Currency Risk

The Group faces the risk of movements in foreign currency exchange rates in relation to the New Zealand dollar. The Group has significant operations in United States Dollars and less significant operations in Australian dollars, Euros and Singapore dollars. As a result of this, the financial performance and financial position are impacted by movements in exchange rates.

The Group manages foreign currency risk by purchasing overseas goods only when necessary and in line with the approved treasury policy. It will also purchase foreign currency to fund overseas operations based on cash flow forecasts in line with the approved treasury policy. There are no formal foreign currency hedges entered into.

A 10% increase or decrease in the foreign currency against the NZD will reduce/increase the loss reported by approximately \$180,000 (2024: \$260,000) and increase/reduce equity by the same amount.

##### (ii) Interest Rate Risk

The Group's interest rate risk arises from its cash and equivalents, and short term deposits. Cash and equivalents comprise cash on hand and deposits at call with banks. Short term deposits comprise of term deposits placed with New Zealand banks on fixed rates for different periods of time.

Management regularly review its banking arrangements to ensure it achieves the best returns on its funds while maintaining access to necessary liquidity levels to service the Group's day-to-day activities. The mixture of bank deposits at floating interest rates and short term deposits at different rates over various periods of time mitigate the risk of interest rates being received at less than market rates. The Group does not enter into interest rate hedges.

A 1% increase or decrease in bank deposit interest rates will reduce/increase the loss reported by approximately \$214,000 and increase/reduce equity by the same amount (2024: \$491,000).

##### (iii) Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The Group incurs credit risk from:

- Cash and short term deposits;
- Receivables in the normal course of its business; and
- Other assets.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

The Group has no significant concentration of credit risk other than bank deposits, with the exposure as at 31 March 2025 expressed as a percentage of total assets: 14.0% at ANZ, 12.5% at BNZ, 16.7% at Westpac, 14.8% at Kiwibank and 2.8% at Wells Fargo. The Group's cash and short term deposits are placed with high credit quality financial institutions including major banks who have at least a A+ credit rating and concentrations are managed within the approved treasury policy.

Regular monitoring of receivables is undertaken to ensure that the credit exposure remains within the Group's normal terms of trade. These receivables balances mainly relate to Kaiser Permanente, New Zealand customers, and the New Zealand Government. Refer to note 10 for further details on expected credit losses for receivables.

The Group continues to invoice for every billable test completed in the US, and the billing and reimbursement process continues to maximise the cash that is received by the Group. The Group has included an accrual for tests performed from 1 April 2024 to 31 March 2025 for which payment has not been received by 31 March 2025.

Regular monitoring of other assets is undertaken to ensure that the credit exposure is limited.

The carrying values of financial assets represent the maximum exposure to credit risk as represented below:

|  | Notes | GROUP            |                  |
|--|-------|------------------|------------------|
|  |       | 2025<br>(\$'000) | 2024<br>(\$'000) |
| Cash and Cash Equivalents                  | 9     | 9,482            | 29,261           |
| Short Term Deposits                        | 9     | 13,086           | 21,000           |
| Trade and Other Receivables (excludes GST) | 10    | 4,906            | 4,648            |
| Other Assets (excludes prepayments)        | 12    | 440              | 249              |
|  |       | <b>27,914</b>    | <b>55,158</b>    |

### (iv) Liquidity Risk

Liquidity risk is the risk that the Group may encounter difficulty in raising funds at short notice to meet its commitments as they fall due. Management maintains sufficient cash balances and uses cash flow forecasts to determine future cash flow requirements. Liquidity risk is managed within the approved treasury policy. The Group has one external loan for \$300,000 which relates to the New Zealand Research and Development Tax Incentive in-year payment loan scheme. The Group also has three finance leases.

Payables and Accruals totaling \$7,863,000 are due within 3 months of balance date (2024: \$6,753,000).

### Fair Values

In the opinion of the Directors, the carrying amount of financial assets and financial liabilities approximate their fair values at balance date.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 22. RELATED PARTIES

A shareholder, the University of Otago, provided services, including rental space, car parking and use of University Equipment, to the Group to the value of \$472,000 (2024: \$493,000). The Group has commitments totaling \$368,000 (2024: \$368,000) with the University of Otago in the next financial year.

#### Key Management Compensation

Key management personnel comprise of Directors and the Chief Executive Officer of Pacific Edge Limited, and the President of Pacific Edge Diagnostics USA Limited.

Refer to Note 8 for details of the Incentive Plan that includes key management remuneration.

|   | GROUP           |                 |
|---|-----------------|-----------------|
|   | 2025<br>(\$000) | 2024<br>(\$000) |
| Salaries and Other Short Term Employee Benefits | 2,556           | 2,147           |
| Share Options Benefits                          | 633             | 646             |
| <b>Total Employee Entitlements</b>              | <b>3,189</b>    | <b>2,793</b>    |

#### Directors' Fees

The current total Directors' fee pool for non-executive Directors of Pacific Edge Limited, approved by the shareholders at the Annual Shareholders Meeting on the 29th July 2021 was \$465,000 per annum and was based on six Directors. With the addition of Tony Barclay on 21 March 2022, the number of Directors increased to seven. In accordance with NZX Listing Rule 2.11.3 which permits an issuer to increase the aggregate amount payable to the Directors to take into account an additional Director without shareholder approval, the pool for non-executive Directors of Pacific Edge increased to \$529,000. Mark Green ceased to be a Director on the 24th September 2024, reducing the pool back to \$465,000 for the remainder of the financial year. The total amount of fees paid to Directors for the year ended 31 March 2025 was \$470,000 (2024: \$500,000).

The table below sets out the total fees approved for non-executive Directors of Pacific Edge Limited for the year ended 31 March 2025 based on the positions held:

| Position                      | Quantity<br>2025               | Fee per<br>Director<br>2025<br>(\$) | Total<br>Directors<br>Fees Paid<br>2025<br>(\$) | Quantity<br>2024 | Fee per<br>Director<br>2024<br>(\$) | Total<br>Directors<br>Fees Paid<br>2024<br>(\$) |
|-------------------------------|--------------------------------|-------------------------------------|---|------------------|-------------------------------------|---|
|                               |                                |                                     |   |                  |                                     |   |
| Deputy Chair                  | 1                              | \$70,000                            | \$70,000  | 1                | \$70,000                            | \$70,000  |
| Non-executive Directors       | 5 to Sept 24,<br>4 from Oct 24 | \$60,000                            | \$270,000                                       | 5                | \$60,000                            | \$300,000                                       |
| Chair Audit & Risk Committee  | 1                              | \$10,000                            | \$10,000  | 1                | \$10,000                            | \$10,000  |

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

### 23. FINANCE AND OPERATING LEASE COMMITMENTS

#### ACCOUNTING POLICY

The Group leases various properties and equipment. Rental contracts vary depending on the type of asset being leased. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the Consolidated Statement of Comprehensive Income over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

#### (i) Measurement basis

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that are based on an index or a rate;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the group, the lessee's incremental borrowing rate is used. The incremental borrowing rate is the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third-party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by Pacific Edge Limited, which does not have recent third-party financing; and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to the Consolidated Statement of Comprehensive Income over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date;
- any initial direct costs; and
- restoration costs.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

Right-of-Use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the Right-of-Use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets include IT equipment and small items of office furniture.

### 24. OTHER COMMITMENTS AND CONTINGENT LIABILITIES

#### a) Contingent Liabilities

There were no known contingent liabilities at 31 March 2025 (March 2024: Nil). The Group has not granted any securities in respect of liabilities payable by any other party whatsoever.

#### b) Capital Commitments

There are no capital commitments at 31 March 2025 (March 2024: Nil).

### 25. SUBSEQUENT EVENTS

#### Medicare Non-coverage of Cxbladder Tests

On 24 April 2025, Local Coverage Determination (L39365) 'Genetic Testing in Oncology: Specific Tests' became effective in the US, halting Medicare coverage of Cxbladder tests.

Pacific Edge, which currently generates approximately 60% of its US revenue from Medicare and approximately 56% of total Operating Revenue, will now focus on the paths available, which include Medicare appeals for Cxbladder Triage to get paid based on its inclusion in the AUA microhematuria guideline, despite the non-coverage determination and reconsideration requests for Triage and Monitor.

Pacific Edge submitted a reconsideration request for Cxbladder Triage under 'Biomarkers for Oncology' LCD (L35396) on 21 March 2025, a request that has already been deemed valid by Novitas, meaning they will now assess the evidence submitted. During May 2025 Pacific Edge has also submitted a reconsideration request for Cxbladder Monitor under 'Genetic Testing in Oncology: Specific Tests' (L39365) requesting non-coverage to be removed.

## Notes to the Consolidated Financial Statements

For the twelve months ended 31 March 2025

However, Pacific Edge will not seek re-coverage of Cxbladder Detect as no new evidence has been published that can be submitted for reconsideration. Detect users will be required to move over to Triage in an acceleration of a plan intended to coincide with the commercial launch of Triage Plus.

Novitas controls the timeline for these reconsideration requests and is not bound by any maximum period to complete this work. Industry experts typically estimate the time at 6-9 months for a valid submission of a single product with only a small number of new supporting publications and not the protracted period of consultation that results from creating a new LCD as was done with L39365.

Regarding Cxbladder Triage Plus, the Company will continue to develop, publish and subsequently submit a reconsideration request in line with our previously published roadmap – those activities remain on track. The Company will also continue to work with Kaiser Permanente on a peer-reviewed publication confirming the real-world utility of Cxbladder Triage.

While the impact of 'Genetic Testing for Oncology: Specific Tests' (L39365) is expected to have a significant impact on testing volume, Pacific Edge expects to continue to bill and receive reimbursement from contracted commercial US payers without interruption, notably Kaiser Permanente, the US Veterans Administration, various Blue Cross Blue Shield plans under the group purchasing agreement and from non-contracted private payers in line with historic reimbursement rates. Similarly, Pacific Edge expects collections from our enhanced patient responsibility and patient assistance programs to continue in line with the rates since the introduction of that program in July 2023.

The impact on revenue and revenue recognition is unable to be determined at this stage until the Group can determine the impact of the non-coverage on the number of tests that the Company receives payment for and the level of payment received.

### Equity Raise

As detailed in the Going Concern section of Note 1 - Material Accounting Policy Information, to assist in the future additional funding requirements of the Group. On 29 May 2025, the Board approved a capital raise which is being progressed with the intention of raising at least \$20m via a Placement and Share Purchase Plan. Completion of the Placement will be dependent on shareholder approval, with anticipated settlement date no later than 31 August 2025.

## Independent auditor's report

To the shareholders of Pacific Edge Limited

---

### Our opinion

In our opinion, the accompanying consolidated financial statements (the financial statements) of Pacific Edge Limited (the Company), including its subsidiaries (the Group), present fairly, in all material respects, the financial position of the Group as at 31 March 2025, its financial performance, and its cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards Accounting Standards (IFRS Accounting Standards).

### What we have audited

The Group's financial statements comprise:

- the consolidated balance sheet as at 31 March 2025;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

---

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)) and International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Group in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* (PES 1) issued by the New Zealand Auditing and Assurance Standards Board and the *International Code of Ethics for Professional Accountants (including International Independence Standards)* issued by the International Ethics Standards Board for Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Other than in our capacity as auditor, our firm carried out other assignments in the areas of other services relating to half year review procedures, assurance on carbon emissions and the provision of a training workshop. The firm has no other relationship with, or interests in, the Group.

---

### Material uncertainty related to going concern

We draw attention to the disclosures in Note 1 to the financial statements, which indicates that the Company incurred a net loss after tax of \$29.936m (2024: loss of \$29.535m) and had net cash outflows from operating activities of \$24.740m (2024: cash outflow \$25.750m). The Company has cash, cash equivalents and short term deposits of \$22.568m at 31 March 2025. In addition, subsequent to year end the Company lost Medicare coverage for its Cxbladder tests which represents approximately 56% of operating revenue. An equity raise intended to raise at least \$20m was approved by the Directors on 29 May 2025, to be completed by 31 August 2025, to provide additional funding.

As stated in Note 1, if the Company is unable to raise additional funds via the equity raise and control its costs appropriately it may have insufficient funds to meet its obligations. These events or conditions, along with other matters set forth in Note 1, indicate the existence of material uncertainties that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material uncertainty related to going concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

| Description of the key audit matter   | How our audit addressed the key audit matter   |
|---|--|
| <p><b>Revenue recognition for US revenue</b></p> <p>As disclosed in Note 5 of the consolidated financial statements, the timing of revenue recognition for US based revenue varies by revenue stream between completion of the Cxbladder test and receipt of cash. As disclosed in Note 5, US revenue was \$20.1m out of total operating revenue of \$21.8m for the year ending 31 March 2025.</p> <p>The Company has three material United States (US) revenue streams:</p> <ol style="list-style-type: none"> <li>Coverage via Centers for Medicare and Medicaid Services (CMS) and Medicare Advantage;</li> <li>Tests performed for Kaiser Permanente; and</li> <li>Other private insurance.</li> </ol> <p>In July 2020, the Company received Local Coverage Determination ("LCD") and Local Coverage Article (LCA) for CMS. This determination created a set price for the Company's tests of US\$760 per test from July 2020, and established a clear transaction price for the tests. This transaction price, along with a history of payment, satisfies the NZ IFRS requirement for revenue recognition.</p> <p>In the US derived revenue for tests performed for CMS, Medicare Advantage, and Kaiser Permanente have been recognised in advance of cash being received. Revenue for these customers is recognised once the test is invoiced.</p> <p>All other US derived revenue is accounted for on a cash receipt basis as disclosed in Note 5.</p> <p>As disclosed in Note 25, subsequent to year end Medicare ceased coverage of Cxbladder. Whilst this does not have an impact on operating revenue recognised in the current financial year, it does create uncertainties regarding future operating revenue.</p> <p>We determined this to be a key audit matter due to the significance of the judgements applied by Directors for revenue recognition and the significance of US revenue to the Company's operations.</p> | <p>Our audit procedures included the following:</p> <p>We obtained an understanding of management's processes and controls for the CMS, Medicare Advantage, Kaiser Permanente, and private insurance US revenue streams, including the relevant controls at the external billing reimbursements service organisation.</p> <p>We obtained the SOC1 System and Organisation Controls Report for the external billing reimbursement service organisation, and evaluated the evidence provided over the design and operating effectiveness of the relevant controls.</p> <p>We evaluated management's determination of the timing of revenue recognition by:</p> <ul style="list-style-type: none"> <li>Assessing the data supporting revenue recognition for CMS, Medicare Advantage, and Kaiser Permanente to confirm that the transaction price can be determined and collectability is probable;</li> <li>Assessing the data supporting revenue recognition for other private insurance to confirm that the transaction price and collectability is only probable when cash is received;</li> <li>Performing subsequent receipt testing to validate the probability of collection of the year end receivables and performing look back procedures over the prior year receivables to test collection rates; and</li> <li>Evaluated whether revenue has been recognised appropriately in accordance with NZ IFRS 15.</li> </ul> <p>We considered the appropriateness of disclosures in the consolidated financial statements.</p> |

## Our audit approach

### Overview

Overall group materiality: \$545,000, which represents approximately 1% of total expenses.

We chose total expenses as the benchmark because, in our view, it is the benchmark against which the Group is most commonly measured by users, and is generally accepted benchmark.

As reported above, we have one key audit matter, being:

- Revenue recognition for US revenue

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

#### Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance about whether the financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Group materiality for the financial statements as a whole as set out above. These, together with qualitative considerations, helped us to determine the scope of our audit, the nature, timing and extent of our audit procedures, and to evaluate the effect of misstatements, both individually and in the aggregate, on the financial statements as a whole.

#### How we tailored our group audit scope

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

#### Other information

The Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of audit opinion or assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information not yet received, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the Directors and use our professional judgement to determine the appropriate action to take.

---

**Responsibilities of the Directors for the financial statements**

The Directors are responsible, on behalf of the Company, for the preparation and fair presentation of the financial statements in accordance with NZ IFRS and IFRS Accounting Standards, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

---

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located at the External Reporting Board's website at:

<https://www.xrb.govt.nz/standards/assurance-standards/auditors-responsibilities/audit-report-1-1/>

This description forms part of our auditor's report.

---

**Who we report to**

This report is made solely to the Company's shareholders, as a body. Our audit work has been undertaken so that we might state those matters which we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

---

The engagement partner on the audit resulting in this independent auditor's report is Maxwell John Dixon.
