A brief explanation of any of the figures above necessary to enable the figures to be understood	<p>AFC Group Holding Limited (“AFC Group”) reports a revenue of \$489 thousand during the six-month period, which was 27% lower than the prior six-month period ended 30 September 2022. This is mainly due to the decline in revenue from oversea wine sales. It’s believed that the overseas revenue will increase in the second half year with sales contracts under negotiation.</p> <p>AFC Group produced a net loss of \$126 thousand for this period due to lower revenue. This compares with a net profit of \$65 thousand for the prior comparable period.</p> <p>This results announcement should be read in conjunction with the commentary on financial results and the unaudited consolidated financial statements for the six months ended 30 September 2023.</p>
