A brief explanation of any of the figures above necessary to enable the figures to be understood	For a detailed commentary on the performance for the period please refer to the attachment market announcement and Preliminary Report. The NTA is negative due to a large proportion of our assets being intangible assets, notably goodwill from acquisitions which are excluded in calculated tangible assets. Further impacted by IFRS16 adjustments for RoU assets and lease liabilities combined with a bank loan facility (see note 16 of the Interim Report) drawn to fund acquisitions, increasing total liabilities. The movement in our NTA from 31 March 23 relates to principle repayments of the bank loan.
