

ANNOUNCEMENT

3 October 2023

Resignation of GM Regulatory & Risk

Catherine Thompson, Manawa Energy's General Manager Regulatory & Risk, has resigned with effect from 1 November 2023.

Ms Thompson joined Manawa Energy in March 2022 as the sale of the company's mass market business was completing.

Manawa Energy Interim CEO, Clayton Delmarter said she had played an important role in the company's transition to Aotearoa's largest independent power producer.

"Catherine has provided strong leadership across a broad range of functions in her time with Manawa Energy. We wish Catherine all the best for the future."

NOTES

About Manawa Energy Limited

Manawa Energy is Aotearoa New Zealand's largest independent electricity generator and renewables developer. We have 26 power schemes throughout New Zealand and a total installed capacity of 510 megawatts, generating an average of 1942 gigawatt hours of electricity per year. We supply around 650 commercial and industrial customers via 6,400 electricity connections.

Manawa (meaning 'heart') acknowledges our heritage establishing electricity generation on the Omanawa River in the Kaimai area during the early 1900s. Our name was gifted by Ngāti Hangarau hapū, mana whenua of the area where our Kaimai hydro-electric power scheme is located.
