

NZX AND MEDIA RELEASE

18 November 2024

Napier Port publishes fourth Climate Change Related Disclosure Report

Napier Port (NZX.NPH) today publishes its fourth annual Climate Change Related Disclosure Report, seeking to provide stakeholders with an understanding of the potential financial implications of climate change on the business.

The previous three years' reports were primarily based on the recommendations of the TCFD framework. The focus of this fourth report is to adhere to the new New Zealand Climate Standards (NZ CS) framework.

Napier Port has been measuring Scope 1, 2 and limited Scope 3 emissions for several years which have been reported in the Annual Report and on the Napier Port website. Since 2022 reported emissions have been externally certified by Toitū Envirocare.

Our emissions audit certification and our Sustainability Strategy and Climate Change Related Disclosure Reports are available at: www.napierport.co.nz/investor-centre/.

About Napier Port

Napier Port is the gateway for Hawke's Bay and lower North Island's exports and operates a long-term infrastructure asset that supports the regional economy. We service containers, bulk cargo, and host a significant number of cruise ship visits. Our strategic purpose is to collaborate with the people and organisations that have a stake in helping our region grow.
